## 关于设计互联

### About Design Society

设计互联是招商蛇口旗下首个综合创新设计聚合平台，致力于为公众呈现丰富多样的文化活动和不同凡响的文化体验。设计互联是世界领先的艺术与设计博物馆V&A（英国国立维多利亚与艾尔伯特博物馆）在中国联合创办的唯一文化机构。设计互联同国内外优秀的学院、博物馆、基金会、商业、政府与教育组织建立了广泛且深入的合作。我们听取行业领袖的建议与设计互联会员和公众的反馈，开发与社会及行业紧密相关的公众项目，这些创作性的多元实践贡献于设计互联的可持续发展。

设计互联已自主策划了数字艺术体验展《数字之维》、新工艺百物展《造物新世代》、神笔飞驰的

等大型展览。此外，我们特设教育平台“设计互联学院”，倡导“与社会共设计”的教育理念，以及“动手设计、独立创造、互联参与”的设计精神。

2017年底，我们实现了一个愿景。一个以设计启发中国的愿景。我们运营的海上世界文化艺术中心成为了深圳的公共文化地标，数百场精彩活动汇聚了不同学科、不同观众群体的创造力及对未来的想象。今天，在新的十年到来之际，我们以实际的行动，经历了一些检验，成功地演化为活跃而流动的生态系统——正如其名：设计互联。

Design Society is an innovative cultural platform founded by China Merchants Shekou (CMSK), with the Victoria and Albert Museum (V&A) as its founding partner. It has already built an extensive network of partners, contributors and supporters from China and around the world, across academia, business, governmental affairs and education, as well as through collaborations with major museums, residential programmes and archival institutions. With the advice of industry experts, the growth of this network demonstrates the overlapping creative practices - closely bound to society and industry – vital to the sustainability of Design Society. An extensive membership programme offers exclusive industry opportunities and career acceleration activities, elevating Design Society as a leading resource on both a local and international scale.

Design Society has curated Minding the Digital, Craft: The Reset, Y Comic X? and Values of Design in China. Our learning platform Design Society EDU takes Design with the Society as its mission, encourage audiences to make, create and connect with design.

Towards the end of 2017 a vision was materialized. A vision to inspire China with and by design. By opening a major civic and cultural monument for Shenzhen to accommodate hundreds of events, big and small, fostering creativity across disciplines, audiences and imagined futures. Today, at the brink of the new decennium, this vision has been practiced, tested and, inevitably, evolved into the vibrant and fluid ecosystem that does justice to its very name: Design Society.

招商蛇口是百年央企招商局集团旗下的城市和园区运营服务商，其城市升级引领者的定位与美好生活承载者的价值主张，均立足于对行业责任与社会责任的自觉承担。

蛇口是招商局事业发展的根据地之一，也是招商蛇口的发源地和大本营。我们始终将文化看作推动社会进步的力量，在建设蛇口的过程中，不仅注重物质的积累，也注重文化的塑造。我们在蛇口创办了报纸、电视台等传媒机构，建设了文化中心、剧院等文化设施，还成立了一家专业文化公司，对发展特区文化产业和满足居民文化需求进行了诸多探索和实践。

回首过去的2018和2019年，招商蛇口以习近平新时代中国特色社会主义思想为指引，按照党中央的部署，深入学习贯彻习近平总书记关于“文化自信”的重要论述精神，整合公司的文化场馆、文化传媒等资源，成立招商文化产业有限公司，践行“文化+”创新发展模式，切实探索文化自信之路。

招商蛇口创办设计互联综合创新文化平台与海上世界文化艺术中心，以面向未来的规划，志在将其打造成真正高标准的国际文化地标与文旅目的地。结合粤港澳大湾区的发展前景，我们将为区域带来更加复合、多元、国际化的人文内涵，丰富城市的文化氛围，促进文化与产业的互联互通，推动中国创意产业发展和设计进步。由此，我们深感骄傲，也深感责任重大。

海上世界文化艺术中心开馆运营的头两年间，我们取得了不少成绩，也遇到了一些挑战。然而在各界朋友的鼓励和支持下，我们实现了一些足以令我们骄傲的目标。海上世界文化艺术中心入选美国纽约《时代》杂志评选的2018年全球百佳目的地，《孤独星球》杂志评选的深圳首选文化目的地等荣誉；两年的总客流逾140万人次，自主

策划了14档高品质、国际化的展览，举办了近300场公众教育活动。此外，我们还成功实现了品牌与内容的双重输出，先后在南昌、苏州、上海等地举办设计互联自有文化IP的展览、活动。这也充分证明了，设计的力量与价值，可以在中国快速的城市化进程中，实现广泛而深远的影响。

深圳围绕粤港澳大湾区和全球区域文化中心城市、国际文化创新创业先锋城市建设，注重价值引领、创新驱动、科技支撑、全球视野，培育一批有示范引领作用的行业龙头企业，形成一批具有自主知识产权的创意设计产品，发展一批高素质的创意设计中坚力量，打造一批具有国际影响力的创意设计品牌，逐步建成具有强大国际辐射力的创意设计之都，为深圳朝着建设中国特色社会主义先行示范区的方向前行，努力创建社会主义现代化强国的城市范例作出积极贡献。招商蛇口在文化创意产业方面的工作，希望也能助力于深圳城市文化的建设。

招商蛇口与英国国立维多利亚与艾尔伯特博物馆(英国V&A博物馆)的合作，是基于文化创意精神的长期国际合作伙伴关系。今年，设计互联文化艺术基金会正式成立，英国V&A博物馆也将作为理事单位，以其卓越的全球文化视野，支持我们在文化IP开发与设计教育领域的工作。

我们将与文化创意同行、与社会各界一道，以习近平总书记新时代中国特色社会主义思想为根本指引，不忘初心再出发、牢记使命勇担当，持续发挥示范作用，为文化创意产业发展提供招商智慧，为新时代中国文化旅游产业的高质量发展作出积极贡献。

China Merchants Shekou (CMSK), a flagship subsidiary under the China Merchants Group, a leading state-owned enterprise under the direct supervision of the central government, is dedicated to comprehensive urban development. Committed to be “the better life carrier”, CMSK bares awareness of industrial and social responsibilities.

Shekou is one of the strongholds of the China Merchants Group. It is also the cradle and citadel of the China Merchants Shekou Holdings. We believe that culture is the force to facilitate social progress. In the process of developing Shekou, we focus not only on accumulating material wealth, but also on the establishment of culture. We have established media organizations such as newspapers and a television station. We have built cultural facilities, such as cultural centers and theaters. And now we have also set up a cultural company. In the past decades we have made extensive efforts to promote the cultural development of Shenzhen Special Economic Zone and the cultural life of Shekou residents.

CMSK integrated company's cultural venues and content resources, and founded China Merchants Culture Industries, carrying out a new developing mode of Culture+.

We have a wider consideration for the establishment and operation of Design Society. In the context of the Guangdong-Hong Kong-Macau Greater Bay Area, our plan for the future is to create a cultural landmark of the highest standards which will introduce a more sophisticated, diverse and international cultural significance to the region. Meanwhile, it will also enhance people's quality of life, enrich the city's cultural atmosphere, promote the interconnection of culture-commerce-industry and help encourage the development of China's

creative industries and the further progress of design in China.

Sea World Culture and Arts Center operated by Design Society has received several world acclaimed awards, it has become a must-see in Shenzhen, and a new cultural land mark in China. It was listed in the top 100 greatest places to visit by *Time*, New York and top art gallery in Shenzhen by Lonely Planet. We have welcomed over 1.4 million visitors in two years, curated 14 high quality international exhibitions, organized over 300 public learning programmes, 74 performances, 12 tenant partners, and 259 commercial and branding events. We have successfully brought Design Society's brand and exhibitions to Nanchang, Suzhou and Shanghai among other cities, testifying power and value of design.

On the basis of the Greater Bay Area, Shenzhen is the leading city in cultivating creative design power, forming originality design brandings with international influence, constructing a city of creative design with global influence.

CMSK established the ground breaking partnership with the Victoria and Albert Museum (V&A), London and co-founded Design Society as an innovative platform. V&A is also the council unit for the Design Society Culture and Arts Foundation, supporting our endeavor in cultural patents and design education.

After the initial two years of operation, we are confident to play a vital role in Chinese and international design innovation and cultural communication, contributing to the development of creative industries and public life.

Foreword:  
Victoria and  
Albert Museum

2017年12月1日的早晨，阳光明媚。设计互联与海上世界文化艺术中心盛大启幕。设计互联是中国首个综合创新设计聚合力平台，是招商局蛇口工业区控股股份有限公司（招商蛇口）与英国国立维多利亚与艾尔伯特博物馆（英国V&A博物馆）伙伴关系的非凡成果。这两家同样成立于十九世纪中叶的机构，相隔千里，就在几年前，它们还未曾有过交集，但现如今，它们因为共同的信仰——设计的力量，以及创意作为一种通用的语言——走到了一起。

启幕前的三年，英国V&A博物馆与设计互联的同事们并肩筹开；启幕后的两年来，设计互联取得了令人瞩目的成就。我们一路相伴，深感自豪。我们的策展人们借此机会观察深圳的创意群体并在地学习，这对我们与招商蛇口共同打造的国际项目新模式至关重要。设计互联旗下V&A展馆的开幕展《设计的价值》恰是基于这一研究、对话与合作的历程，并邀请中国观众参与、建议和反馈。我们认为这开创了英国的博物馆们参与国际文化合作的一种新模式，不只是实体投资或内容输出，而更多在于观念与传统的双向交流。V&A展馆成为了这一新模式的有力实例。展览探讨了多元的价值观，植根于中国当代创意实践的微妙差异，从真正的贯通古今的国际视角出发，结合中国的尖端科技，让观众更全面深入了解中国——这一全球最快速增长的经济体。

《设计的价值》开展后获得了应有的赞誉与评价，设计互联的另一开幕展《数字之维》讨论了

紧迫的时代议题，也很受观众的欢迎。双方的深入合作与对项目的贡献，极大影响着来自不同领域、拥有不同文化背景的学校、社群、高校、创客、设计师与创造者们，他们都逐渐在设计互联找到归属感。周末在海上世界文化艺术中心和海上世界片区，汇聚着五湖四海的游客，参与到五彩缤纷的公众文化项目，让我们极富成就感，也对未来充满希望。在这样一个快节奏的、复杂的、嘈杂的消费环境中，我们的当务之急是继续策划能与观众对话的多元项目。新近注册成立的设计互联基金会将成为资源聚集的平台，让我们把可持续发展放在首位，以更好的战略、更宏伟的目标以及企业家的姿态，迎接下一个十年。

我们同设计互联的合作以前是、将来也是真诚的交流与合作。透过设计，彼此交流经验、知识以及变动不居的视角。通过我们在中国结识的新朋友、新同事，英国V&A博物馆博物馆收获了知识与经验。作为中国首个经济特区，四十年来，深圳正蜕变成一个欣欣向荣的新兴设计界。从工业引擎转向创意之都，我们的合作恰是建立在深圳的创造力和创新性的历史机遇之上。在这种城市活力的感召下，设计互联将继续成长为无墙的文化平台，分享灵感故事，共赏当代创造力的成就。

The launch of Design Society on a beautiful sunny morning on 1 December 2017, whilst the beginning for a unique new public design institution for China, already represented an extraordinary achievement for the V&A as China Merchants Shekou's (CMSK) founding museum partner. Two organisations, both founded in the middle of the 19th century thousands of miles apart, and strangers to each other just a few years before, brought together by a common belief in the power of design and creativity as a common language.

For the V&A we look back on those 3 years working with Design Society colleagues in advance of opening with as much pride as we now look back on the 2 years of achievements since. This opportunity for our curators to embed themselves within Shenzhen's creative community, to observe it and learn from it, was fundamental to the new model for international work forged with CMSK. V&A's inaugural Values of Design gallery, which emerged from that process of research, dialogue and immersion, was truly something created in, informed by and responding to, a Chinese audience. We spoke about this as a new model for UK museums to engage in international cultural collaboration – less an investment in bricks and mortar, or an exporter of content, more an exchange of ideas and traditions – and the new gallery provided a powerful example of that fresh approach. Through this gallery audiences have been engaged in a conversation about values through a more nuanced context to Chinese contemporary creative practice, a truly international perspective – historic and contemporary – weaved together with the very latest technological developments from China, to make greater sense of the fastest growing economy in the world.

Back in 2017 Values of Design rightly gained profile and the critical response it deserved, alongside the Design Society's timely and resonant first exhibition Minding the Digital, but the depth of the partnership and the V&A's contribution to it has its greatest impact in the network of schools, community groups, colleges, makers, designers and creatives from myriad disciplines and backgrounds, who increasingly see Design Society as a natural home. Visiting the building and the wider Sea World district, particularly at a weekend, and witnessing the diversity of visitors and their interactions with the public programme, should give all of us involved great satisfaction and hope for the future. The

priority must now be, in a particularly fast moving, complex and noisy consumer environment, to continue to invest in an overall programme which speaks and responds to its audience, and to use the emergence of the Design Society Foundation – championed by China Merchants Shekou – to be ever more strategic, ambitious, entrepreneurial and, crucially, sustainable for the new decade that now awaits us.

The collaboration with Design Society has been, and continues to be a genuine exchange – of experiences, knowledge and changing perspectives on the world around us through the lens of design. At the V&A we are an infinitely more knowledgeable and richer organisation as a result of our experience in China, largely through the people we have met and through relationships with new friends and colleagues. In Shenzhen, we see a city transformed over 40 years, through its status as China's inaugural Special Economic Zone - leading to the emergence of a new and flourishing design scene. Our partnership is built on a shared conversation driven by a critical moment of creativity and innovation, as Shenzhen pivots from industrial engine to creative capital. Inspired by that dynamism, Design Society must continue to grow a platform, far beyond its walls, to share stories of inspiration and collectively appreciate contemporary feats of ingenuity.

设计互联  
Foreward:  
Design Society

21世纪的第二个十年刚刚开启，设计互联运营的海上世界文化艺术中心开馆两年来，以其丰富的文化活动吸引了各类观众群体，成为了广受赞誉的文化地标与文旅目的地。设计互联这一中国知名文化品牌形象着设计与创新之都深圳的迅猛发展。深圳已经超越了原本与其绑定的制造业标签，正在为中国未来的社会与经济发展探索新路，开辟路径。设计互联作为一个创意平台，由中国历史最悠久、规模最大的中央企业招商局集团，与世界上历史最悠久、规模最大的博物馆之一英国国立维多利亚与艾尔伯特博物馆（英国V&A博物馆）共同创办。其使命与创立背景时刻体现在其出品品质与规模上。这本双年报展现了我们的成就与挑战。我身为设计互联的开馆馆长，荣幸之至。

开馆馆长必然会是见证者，而开馆的经历也成就了我人生的新阶段。筹开期间，细密的筹备工作步步为营：调研与规划，招募团队，创立品牌，构建叙事线索串联整个项目。一座文化机构的创立仰赖于这些步骤，让每位参与者站在共同的平台上携手向前，向前……

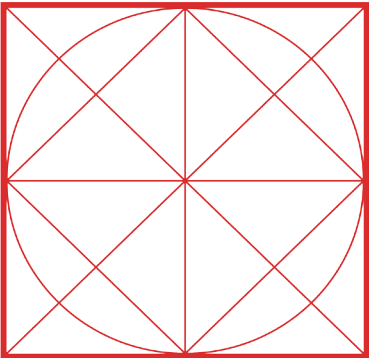

盛大开馆

2017年12月1日，由设计互联运营的海上世界文化艺术中心正式启幕，并接待了第一批访客。我们做到了！而且做得漂亮！

异变潜入

起初的愿景+指导步骤+运营手册等幕后准备工

设计互联

作与开馆后的实际运行、维护并与成千上万访客分享，是完全两码事。接受公众检验的时候到了，这也是将想法之流巩固起来、将各类活动固定下来并保持高频率的时候。由此，我们吸引公众的关注，同时缓慢而稳健地构筑其忠诚。

未来规划

目的地的成功与否不足以支撑设计互联的品牌。为此，我们需要建立越来越多的联系，以在中国和全球文化基础设施和话语中建立自己的地位。我们需要连接新的创意社区与培养设计的使命。我们需要调解设计人才与社会问题。我们需要弥合新的自信心与所需的实验思维之间的差距，从而在未来常葆自信。未来，任重而道远。

日常运营

我们需要在以下方面持续努力：构建一套机制，来确保我们与深圳这座城市、与中国创新文化、与全球创意对话之间的持久相关性。设计互联是我们始终如一的初心，引领我们在保持日常灵感与文化享受的同时，实现自我超越。

设计互联开馆馆长  
奥雷·伯曼

Ole Bouman  
Founding Director of Design Society

Design Society as it stands at the brink of a new decennium: the Sea World Culture and Arts Center operated by Design Society became a widely acclaimed visitor destination, that welcomes its multiple audiences in a large turn out and either stages or hosts every week its dozens of events, big and small; at the same time it's a well-known cultural brand across China, representing Shenzhen's and its rapidly ascending status of city of design and innovation, beyond its role as manufacturing powerhouse, paving the way of a new social-economy in China. At the same time, a creative platform, that faces an enormous responsibility to live up to its initial promises, it's scale and quality standards, and its background of being originated together by one of the largest and oldest companies in China, China Merchants, and one of the largest and oldest museums in the world, the Victoria & Albert Museum. This Year Book for its first two years of public operation shows our accountability for both the achievement and the challenge. It has been a true privilege to provide some guidance in this endeavor.

Every founding director must become witness, or better be the agent of her or his own re-invention. At first there are the careful preparations: understanding the situation; conceiving of a mission; building a team; coining a brand; developing a program, creating a narrative to promote the whole endeavor. Especially for establishing a cultural institution, these steps are crucial to provide common ground for everyone to stand firm and stay the course towards, towards...

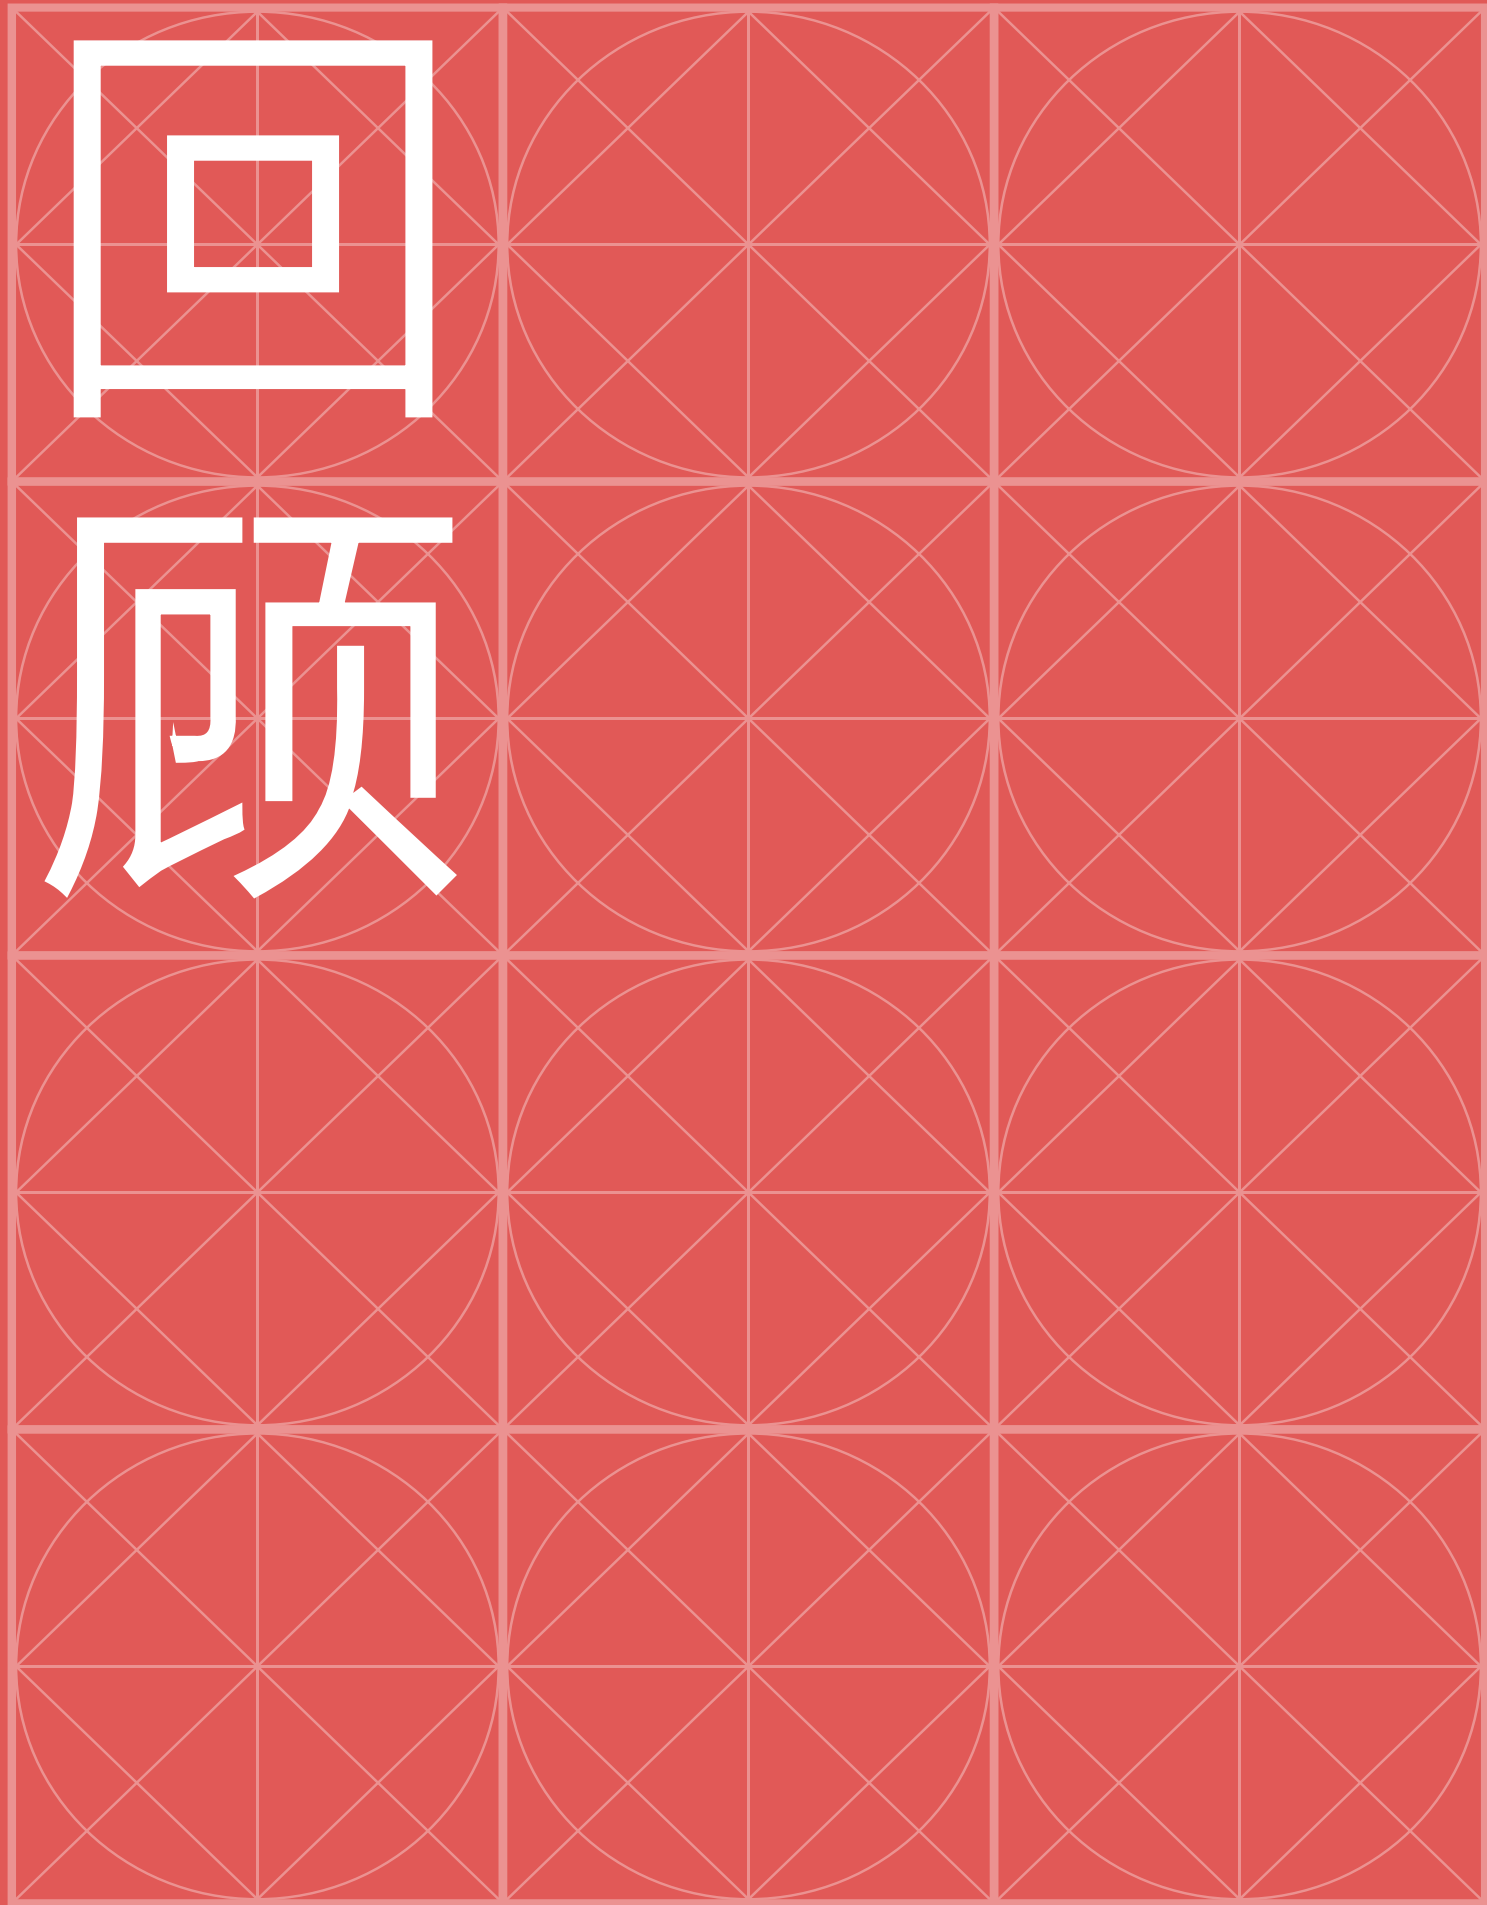

Towards a successful opening. Design Society could open its 70.000sqm venue on December 1, 2017, having all these things in place to start receiving its first visitors. We were relieved that we made it, and ready to make it.

And that's where the metamorphosis kicks in. Whatever visionary plan + executive scripts + operational manuals you may have, to prepare such project behind the scenes is a completely different ball game from actually running it, maintaining it, sharing it with the thousands of visitors ever since. Time has come for public scrutiny, but also for the consolidation of a flow of ideas to keep solid and apace the flow of activities that builds not only excitement among the public, but slowly but surely, its loyalty.

And then, there is, equally topical and urgent, the strategy making for the future. A destination, whatever successful, is not enough, to justify a brand called Design Society. For that, we need to build more and more connections, to build our place in the Chinese and global cultural infrastructure and discourse. For that we need to match a new creative community with the agenda to cultivate design. We need to mediate between design talent and societal issues. We need to bridge the gap between a new self-confidence and a required experimental mind set to deserve self confidence in the future as well. There is so much to do.

After preparation comes operation. But these only pre-empt another stage: to develop mechanism for enduring relevance to the city of Shenzhen, the Chinese culture of innovation, the international creative dialogue between China and the world. We need to position Design Society as an important driver in this midterm ambition while keeping the daily inspiration and enjoyment in culture on the level it has reached. Or even beyond.

# 设计互联： 联动设计的力量

## Design Society: Unite the Power of Design

由设计互联运营的海上世界文化艺术中心开馆至今已两年，逾140万观众来访，其中80%年龄在35岁以下，40%从事创意产业、艺术、设计、建筑等相关行业。这些数据表明文化艺术中心已成为深圳创意群体与青年的聚集地，是国内最受欢迎的文化机构之一。

设计互联由招商蛇口创办成立，邀请英国国立维多利亚与艾尔伯特博物馆（英国V&A博物馆）作为创立合作伙伴，开创了中国企业与国际文化机构的全新合作模式。通过此项合作，我们不仅实现了国际机构标准的本地化、内容的引进与输出，更以丰富的文化活动促进了多元观念与价值的双向交流。2019年，随着招商蛇口发起的“设计互联基金会”正式成立，设计互联管制机制逐步完善，我们得以更好地开展在创意人才、教育、产业及社会融合上的工作愿景。

设计互联的背后是一支年轻、国际化的专业团队，在工作的过程中，团队最看重两个目标：第一是我们能否可持续地创造价值？对内是否有足够的保障机制，对外与合作伙伴是否做到了共赢，对完善行业结构、社会生态是否做了正贡献？；第二是我们在内容上是否起到了引领作用？尤其是让青年一代的观众直面时代议题，触发开放与多元的讨论，让公众对文化的认识、理解和思考发生一些积极的变化。

两年来，设计互联共举办了28场展览，其中自主策划14场。我们的展览得到了大量国内外设计师、机构、院校及企业的支持，形成了包括英国英国V&A博物馆、巴比肯艺术中心、奥地利林茨电子艺术节、北京故宫博物院、中央美术学院、北京服装学院、以及大湾区的香港设计总会、信言设计大使、澳门设计中心，深圳市平面设计协会、深圳家居设计协会等在内的创意工作网络；还建立了与腾讯、矽递科技、工商银行、中洲未来实验室、丝路视觉、创梦天地等企业的创新合作。

自2017年开幕以来，设计互联与英国V&A博物馆共同策划的开幕展《设计的价值》吸引了逾10万观众参观，得到了广泛的社会赞誉，成为我们最受欢迎的展览之一。与此同时，我们开始发掘那些敏感于社会变化、有助于改变做事方法、提供社会和经济福利的中国设计实践，并再次与英国V&A博物馆联合策划《设计的价值在中国》，该展览将于2020年1月开幕。

此外，我们策划了一系列大型主题展览，通过聚

集国内外艺术家、设计师、手工艺人、科学家在内的创作群体，回应了有关文化遗产、技术革命、可持续发展与环境保护等时代议题，其中包括2017年开幕展《数字之维》、2018年《造物新世代》、2019年与北京中央美术学院、奥地利林茨电子艺术节共同策划《科技艺术40年——从林茨到深圳》等；而2020年我们即将迎来英国V&A博物馆大型展览《源于自然的时尚》，也将针对中国时尚行业进行特别内容策划。我们希望展览不仅是一个转瞬即逝的美好体验，更能引领观众去认识生活的现状与未来，传递新思路与希望。

在公共教育方面，我们围绕展览内容开展了包括校园设计之旅、教师分享会及各类公共讲座、社区节、夜宿艺术馆等丰富的活动。两年来，我们共计举办公教活动255场，有逾25000家庭参与，培养了222名志愿者，并与深圳市创想公益基金会一起培养设计师专业志愿者团体。我们因活动结识了成百上千来自各行各业可爱的人，其中有教师、学生、创客、企业家和退休职工等。他们充满创意、又热心教育与社区公益，不断激励我们进步。我们也走出了文化艺术中心，与中小学校、招商街道办建立联系：我们与青年设计师和蛇口街道居民一起制作了大量社区公共座椅；我们也在南山区教育局支持下，在深圳蛇口育才教育集团的一小、四小教授设计思维课程。

两年来，我们的努力获得了广大观众、舆论与业界的积极评价：文化艺术中心荣获《孤独星球》评选深圳首选文化场馆、纽约《时代》周刊2018年全球百佳目的地。2019年，深圳本地文化媒体《打边鼓》发布了深圳文化展馆观众友好度评级，文化艺术中心获得最高评价。诸多大众与专业媒体评价设计互联“对中国原创作品致敬，倡导多样性和独特性”（《中国日报》，2019.8），“在拥有大量互联网巨头、华强北及科技加工企业的深圳，传递出一种少年式的意气风发的信号，‘毫无中年的颓废’”（《艺术新闻中文版》，2019.11）“展现了新的理想主义和社会责任感”（《YT》，2018.11）等。

设计互联开馆两年的成长得益于来自政府及各方合作企业、机构与个人的支持，在此我们由衷表示感谢！2020年我们将持续快速成长，与更多人共享设计互联的乐趣、成就与愿景。

Deputy Director of Design Society

The Sea World Culture and Arts Center (SWCAC) operated by Design Society has welcomed over 1.4 million visitors since its opening in December 2017, more than 80% of the visitors are under 35 years old, 40% of the visitors work in the creative industries. These statistics show that SWCAC has been recognized as one of the most popular cultural hubs in China summoning creative and youth crowds.

Founded through the pioneering collaboration between China Merchants Shekou (CMSK) and the Victoria and Albert Museum (V&A) in London, the first of its kind between a Chinese corporate partner and an international museum, Design Society brought international standard and high quality contents to the area, and programmed various cultural activities to foster exchange of diverse ideas and values internationally. Design Society Foundation initiated by CMSK was officially registered in 2019, which provides a solid governance platform to support our missions regarding networking, education and integration of the creative industry with the wider society.

Design Society has a young and international team, and a couple of targets we value the most: the first is if we can create sustainable value, if we own a strong mechanism to ensure efficient operation, if we succeed in win-win situations with our partners, and if we contribute to the maturity of industrial and social ecology; the second is if our contents are cutting-edge enough, if we can inspire the young generation to face the urgencies of our time and join open discussions, and if we can bring about positive changes to the understanding, comprehension and thinking of culture.

In 2018 and 2019, Design Society has hosted 28 exhibitions and curated or co-curated 14 of them. Our exhibitions received support from international designers, institutions, academies and corporates, including the V&A, Barbican Art Center, Ars Electronica, Palace Museum in Beijing, Central Academy of Fine Arts Museum and Beijing Institute of

Fashion Technology. The creative community in the Greater Guangdong-Hongkong-Macao Bay area offered us great support as well, including Hong Kong Federation of Design Associations, Design Trust, Macau Design Centre, Shenzhen Graphic Design Association and Shenzhen Furniture Association among others. Design Society led innovative collaboration with corporates, including Tencent, Seed, Industrial and Commercial Bank of China, C Future Lab, Silkroad Vision and iDreamSky among others.

Values of Design, produced by the V&A in collaboration with Design Society for the opening of the SWCAC in 2017, welcomed more than 100,000 visitors and received wide recognition. It's one of the our most popular exhibitions. January 2020, its successor Values of Design: China in the Making shifts the lens to focus on design developments in China to explore the changing design landscape in the country. We have the privilege to work with both leading and emerging designers and entrepreneurs in China, in presenting a more agile, reflexive and attentive approach to look at the world we are living in.

In the past two years, we have curated large-scale themed exhibitions summoning international artists, designers, artisans, scientists and practitioners, in responding to urgent topics including cultural heritage, technological revolution, sustainable development and environmental protection. 2017, Minding the Digital offered a journey exploring how design is responding to digitalization; 2018, Craft: The Reset showed the reawakening of crafts in contemporary design and society; 2019, 40 Years of Humanizing Technology – Ars Electronica in Shenzhen was the result of the collaboration between Ars Electronica, Central Academy of Fine Arts and Design Society. Opening in March 2020, Fashioned from Nature traces the complex relationship between fashion and the natural world, and highlights the critical role of design in creating a more sustainable fashion industry; it also includes a section spotlighting pioneers of contemporary Chinese art and design. We wish our exhibitions offer not only a temporal and rich experience, but also lead the audience to discover the reality and potentiality of life, and inspire them with new ideas and hopes.

Public learning is another important aspect of our work. Design Society's learning team organized series of public learning programmes including deign tour, teachers' camp, commununity festival, workshops, talks and night at museum. In total 255 events welcomed more than 25000 families and were supported by 222 volunteers. Design Society cultivates professional designer volunteers in partnership with C Foundation in Shenzhen. Through a variety of activities, we came across all walks of life including teachers, students, makers, entrepreneurs and retired employees. Their creativity and enthusiasm towards education and community welfare encouraged us. We reached out to elementary and middle schools as well as local compounds, and initiated "design your chair" campaign inviting local residents to design

public chairs under guidance of young designers. We have built long term partnership with Shekou Yucai Education Group under the governance of Nanshan District Education Bureau and developed Design Thinking course.

Our efforts were recognized by our audience, fellow professionals and the press. The SWCAC was named Top Art Gallery in Shenzhen by Lonely Planet and Top 100 Greatest Cultural Destinations by TIME in 2018, and most popular cultural destination in Shenzhen named by local cultural media ARTDBG in 2019. We received multiple compliments from both main stream and professional press. For example: "Design Society pays tribute to Chinese original creativity and advocates for diversity and uniqueness" (published in August 2019 by China Daily); "In the city of Shenzhen, where internet giants, Huaqiangbei electronics market and many hi-tech corporates crowd, all signals sent from Design Society are pointing to a vibrancy of youth rather than a crisis of middle-age"(published in November 2019 by The Art Newspaper China); "Design Society showcases a new idealism and social responsibility" (published in November 2018 by YT) among many others.

We have achieved what we can be proud of and it's thanks to the support from the government and our collaborative corporates, institutions and individuals. In 2020, we will continue to mature and share joy, success and aspiration of Design Society with wider connections.

本次展出的五组作品环环相扣地构建出了一个由虚拟现实和增强现实所叠加生成的未来空间。借助可穿戴设备，在5米x10米的物理空间内，混合叠加虚拟空间，给观众带来无限大的空间体验，并由此生成无限的可能性。

此次展览不仅希望为观众带来最前沿的混合现实体验，也尝试构建一个实验和反思的平台，与观众共同探讨以下问题：

通过感官模拟和可穿戴技术所带来的空间体验，是否真的会带领我们去往一个更美好、更人性化的未来？还是恰恰相反，它们在压缩空间的同时也压缩了生活本身？虚拟技术的发展，如何才能延续以人为本的可持续生活方式？设计互联以5x10这个空间概念为起点和入口，探索混合现实的潜力，并支持在相关领域前沿不断探索创新的青年团队位形空间未来的创作。

The five works presented in the exhibition are closely linked to build out a future space created by virtual reality and augmented reality. With wearable devices, the superimposed virtual world gives the audience an infinite space experience and thus generates unlimited possibilities within a physical space of 5m x 10m.

The exhibition not only hopes to bring the most advanced mixed-reality experience to the audience, but also tries to build a platform for experimentation and reflection, with audience to discuss the following questions: whether the space experience brought by sensory simulation and wearable technology will lead us to a better, more humane future? Or on the contrary, they compress the life itself while compressing the space itself? With the development of virtual technology, how can we continue the people-oriented sustainable lifestyle? Design Society takes the concept of space 5x10 as the starting point, explores the potential of mixed reality, and supports the future works of Configreality in the forefront of related fields.

## BIFT • Show - Shenzhen 2018

主办：  
设计互联，北京服装学院  
2018.8.24-11.30  
园景展馆

Organizer: Design Society,  
Beijing Institute of Fashion Technology  
2018.8.24-11.30  
Park View Gallery

本次展览集中展示了北京服装学院近三十年的设计教育实践成果。

北京服装学院作为中国第一所服装设计高校，在服装设计相关的教学、科研、产业培育等方面积累了丰富的经验。改革开放四十年来，国内服装行业发展出丰富的生态，也面临诸多亟待关注的问题：中国服装行业如何发展出代表性和独创性？如何传承传统服饰文化并展望未来？就此，北京服装学院近几年以“传统服饰文化传承与设计创新”为研究方向，开展了颇具责任感的设计工作，并以服装设计的方式参与到国家重大活动中，如2008年奥运会和2014年APEC会议等，以实践探索传承创新中国传统文化。

2018年是深圳成为联合国教科文组织“设计之都”的十周年，深圳的创意设计行业在中国乃至世界具有独特优势。深圳是服装、服饰产业的重要基地，生产、设计水平在中国处于领先地位。设计互联作为根植深圳的创新文化中心，希望通过展示不同机构的设计成果，实现设计研究、教育与产业间的相互交流、启发与联动。

The exhibition represents an important showcase of Beijing Institute of Fashion Technology's 30 years of design education practice.

As the first fashion design tertiary institute in China, Beijing Institute of Fashion Technology has rich experience in scientific research, education, industry incubation and production in the fashion industry. In the past 40 years of reform and opening up, the ecology of the fashion industry has grown in diversity. Yet, its development has been underpinned by urgent issues: How to develop identity and originality in the Chinese fashion industry? How to inherit the traditional garment craft and project the future? Beijing Institute of Fashion Technology has showed determination and responsibility in developing the research direction on “Traditional Culture Heritage and Innovation” over the past few years. Through their fashion design initiatives, it has participated in major national historical events such as the 2008 Olympic Games and the 2014 APEC Conference to explore the path of inheriting and revitalizing Chinese traditional culture.

The year 2018 marks the 10th anniversary of Shenzhen as the UNESCO City of Design. The creative design industry in Shenzhen has unique advantages in China and the world. Shenzhen is an important industrial base for the fashion design industry with the leading production and design in China. As the leading innovative cultural center based in Shenzhen, Design Society hopes to foster the mutual exchange, inspiration and connection between design research units, education institutes and the industry by showcasing their important achievements.

此次展览汇聚了设计行业最前沿的造物新世代代表人物。设计互联提出的工艺并非是对老套工艺传统的乡愁，而是对新商业模式、新生活方式、新科学技术与新文化感知力的灵活运用。此次这批造物新世代参展者，以其创作实践展现出工艺可以是塑造未来、凝聚社群、保护地球生态的重要力量。

——设计互联开馆馆长 奥雷·伯曼

“新工艺”是当代设计师对于传统工艺和时代发展之间的探索，通过创新使其重返当代生活。设计师们根据自己对材料的理解，对其进行解构与重构，将源自工艺的材料和技艺运用到新的领域。在数字技术和高新科技不断发展的今天，工艺的定义是否已经转变？机器造物能否被称为工艺？科学技术是否也可以是工艺的一种形式？同时，又如何通过工艺来表达一种新的理想主义和社会责任感？在此，工艺成为设计师们的思考与实践方式，并转化为对细节、年代、文化、技艺、价值与构建关联的全新态度与精神。

此次展览将通过逾50位设计师和艺术家的100多件作品，从手工复兴、方法与技艺、迭代与创新以及理想社会四个角度，深入探索工艺所蕴藏的无限潜力及其对中国创新未来的重要推动力。继开幕首展“数字之维”对数字化技术如何影响当今及未来人类社会的探讨后，新工艺百物展“造物新

世代”致力于呈现工艺在当代设计与社会中所焕发的新活力，带公众回溯传统，解构技艺，探索创新，畅想一个受益于工艺潜能的未来世界。

“It’s a new narrative, coming from the most pioneering minds in society and the design field. It’s a narrative not as a regression, falling back into the trap of nostalgia, but as a future oriented design, based new ways of living, on new business models, new application of digital technologies and, yes, a new cultural sensitivity of the need to save the planet and cultivate vibrant communities to ensure its future stewardship. That’s why we call this exhibition Craft: the Reset, to showcase how Craft is being re-energized by attracting the strongest talents for its act of rebirthing.”States Ole Bouman, Founding Director of Design Society

*Craft: The Reset* is a large-scale exhibition about the reawakening of crafts in contemporary design and society, which will present over 50 exhibitors and more than 100 works in four themes of Craft Revival, Craft Methodologies, Craft Innovation, Crafting a Better World. Following the inaugural exhibition *Minding the Digital* which discussed the impact of digital innovation about our society, it investigates the widening possibilities of crafts as an equally important creative impulse for China’s future innovation.

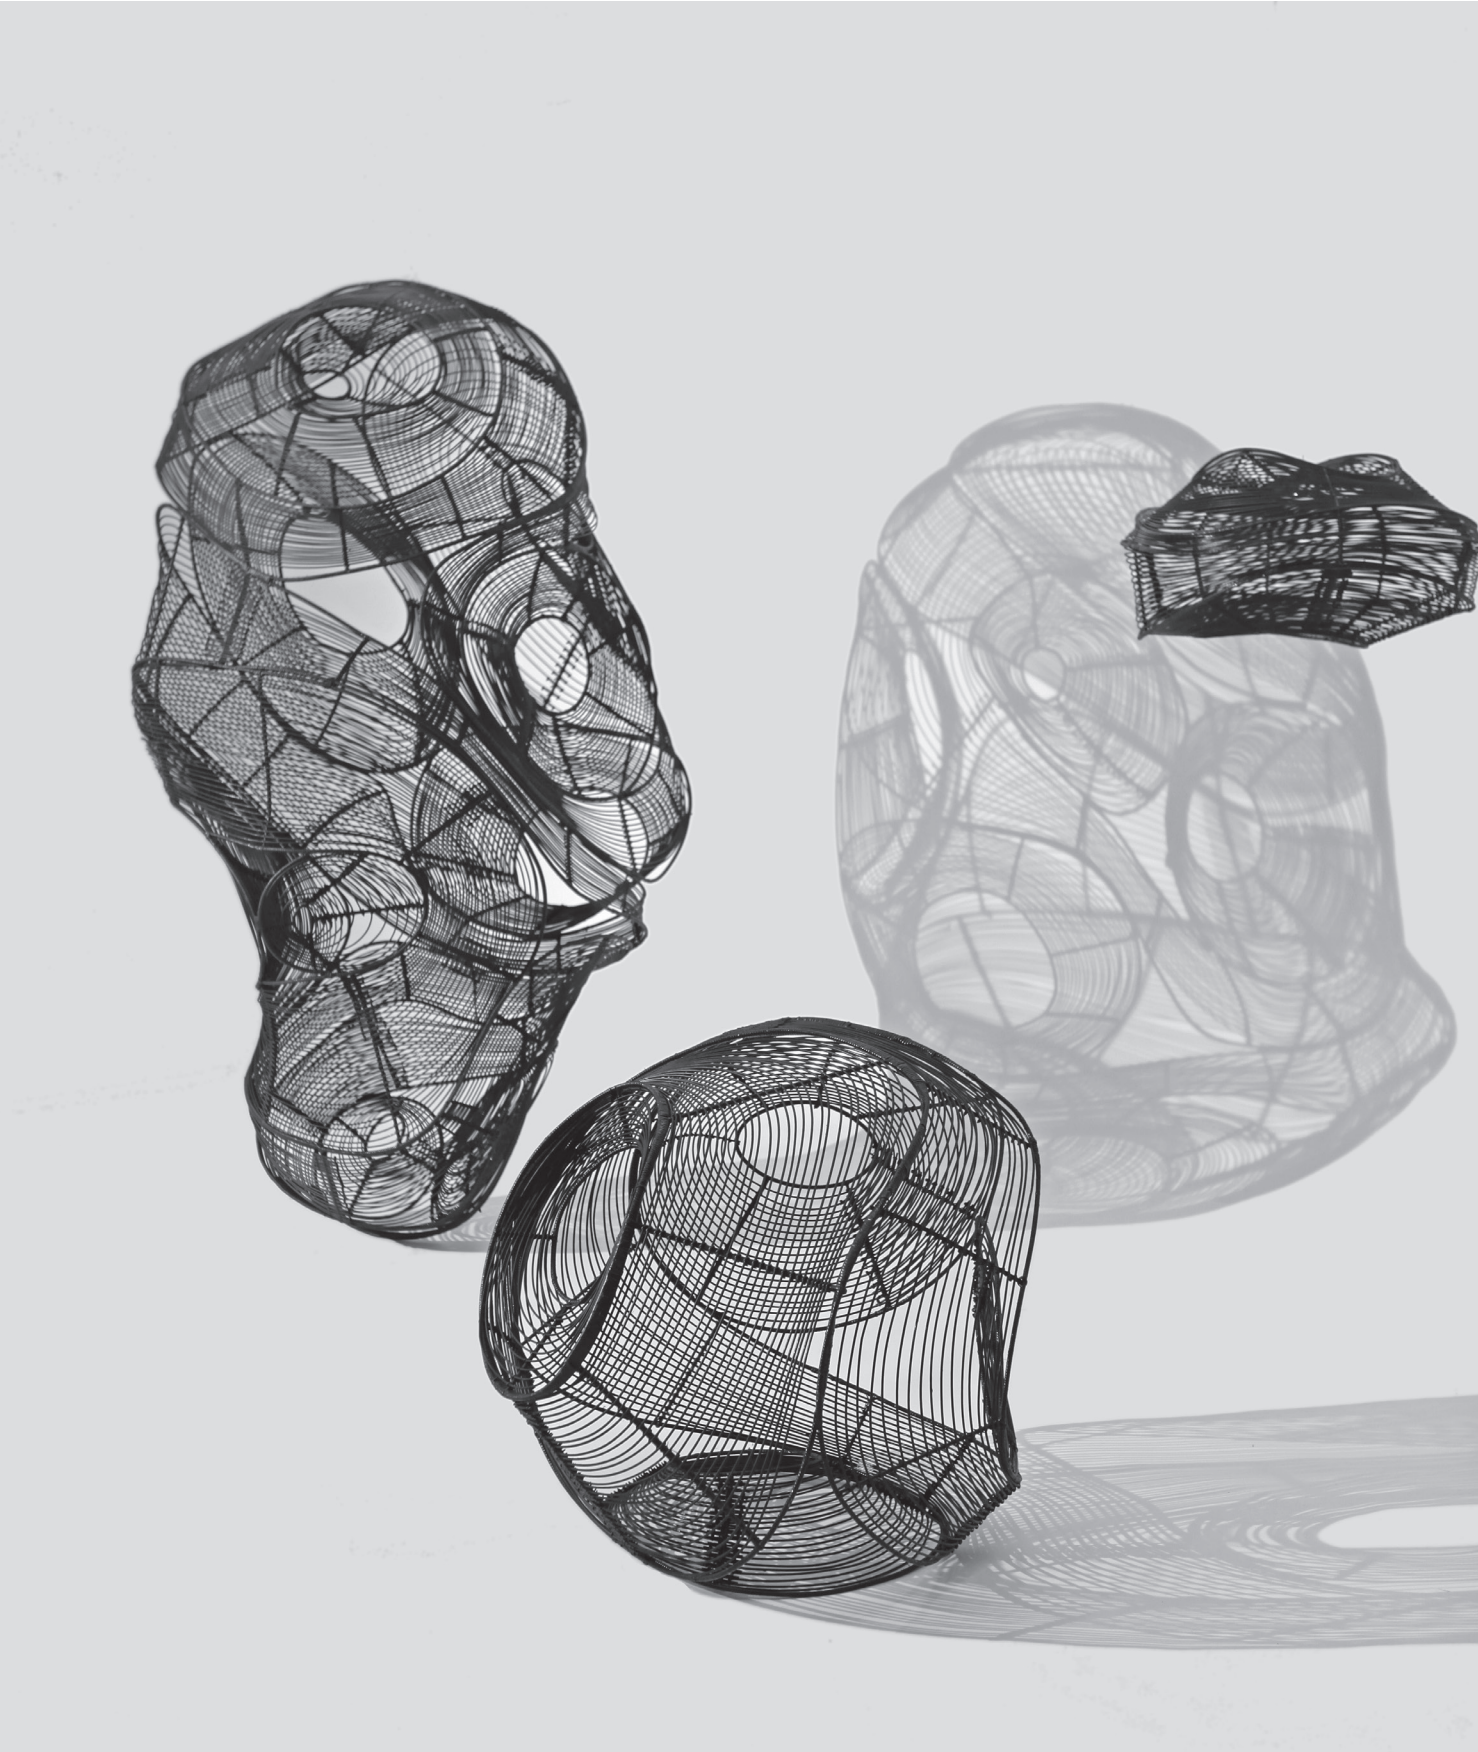

*Craft: The Reset* evaluates how creative practices are reinvigorating crafts from within, using this medium as an interface to engage with larger themes in contemporary society. It explores how designers create new lifestyles with crafts. In this context, we ask how designers are relating to the past

through traditional crafts, how they are engaging with materials, how crafts are being innovated or are a channel for new innovation, and how crafts represent a new idealism and responsibility. Each section shows how designers are thinking through crafts, showing a new spirit or attitude towards detail, time, culture, skill, value and connection, taking the audience to look back on traditions, deconstruction techniques, exploration and innovation, and imagine a future world benefiting from the potential of craft.

石汉瑞  
Henry Steiner

著名平面设计师石汉瑞被誉为「香港设计之父」，他的设计融合了东西方文化，触发了中国香港与内地平面设计的意识觉醒。《启蒙者·石汉瑞》是石汉瑞在中国内地的首次个展，也是他迄今为止最大规模的展览。展览将完整呈现他自20世纪60年代至今逾半个世纪的设计实践历程，汇聚85套品牌设计案例以及书籍、杂志、钱币等实物设计与多套珍贵手稿，全方位展示石汉瑞的跨文化设计理念，生动体现其国际视野对中国现代平面设计的启蒙影响。

改革开放伊始，中国社会急剧转型、快速发展。深圳、广州等华南沿海城市毗邻香港，最先接触到国际现代平面设计，成为现代平面设计发展的前沿地区。1992年，平面设计协会在深圳创办，并于同年举办《平面设计在中国》展，这是中国平面设计行业的里程碑事件。

设计互联作为根植深圳、珠三角的重要公共文化机构，希望通过深度的设计研究，展现珠三角地区乃至中国现代设计发展历程，梳理关键的行业实践。此次展览作为石汉瑞在中国的首次个展，邀请石汉瑞的好友、设计师、出版人何见平教授策划。设计互联期待通过此次展览推动对设计师个案的深入研究，回溯中国现代平面设计发端、发展的社会语境与时代背景，呈现中国文化在平面设计实践中焕发出的丰富面貌。

Y-COMIC-X? showcases the story of China through the evolution of Chinese comics, displaying more than 400 local comic works from 85 comics artists, including 73 original drawings, in chronological order. This exhibition is composed of six chapters: Early Manhua (Comics) and Lianhuanhua (Comic Strips), The Golden Age of Lianhuanhua, External Influences on Chinese Comics, Globalization and Digitization of Chinese Comics, Independent Spirit, and Comics in the Multimedia Age. It presents the evolution of Chinese comics as a unique form of narration.

Y-COMIC-X? is a new and major endeavor for Design Society. Manhua (the Chinese word for 'comics') is a joyful and genuine form of expression close to our daily life. Through gathering those Chinese comics pioneers who hold the broadest popularity, the exhibition presents the developing artistic trends of comics, and presents the audience with a universe created by the magical pen, where they can find a lost innocence and uphold the conscience of an era, condensing the cultural memories of a century and rebuilding the enclave of youth for several generations.

# 融.榫卯 和合而生

## Rong Design Exhibition • SunMao

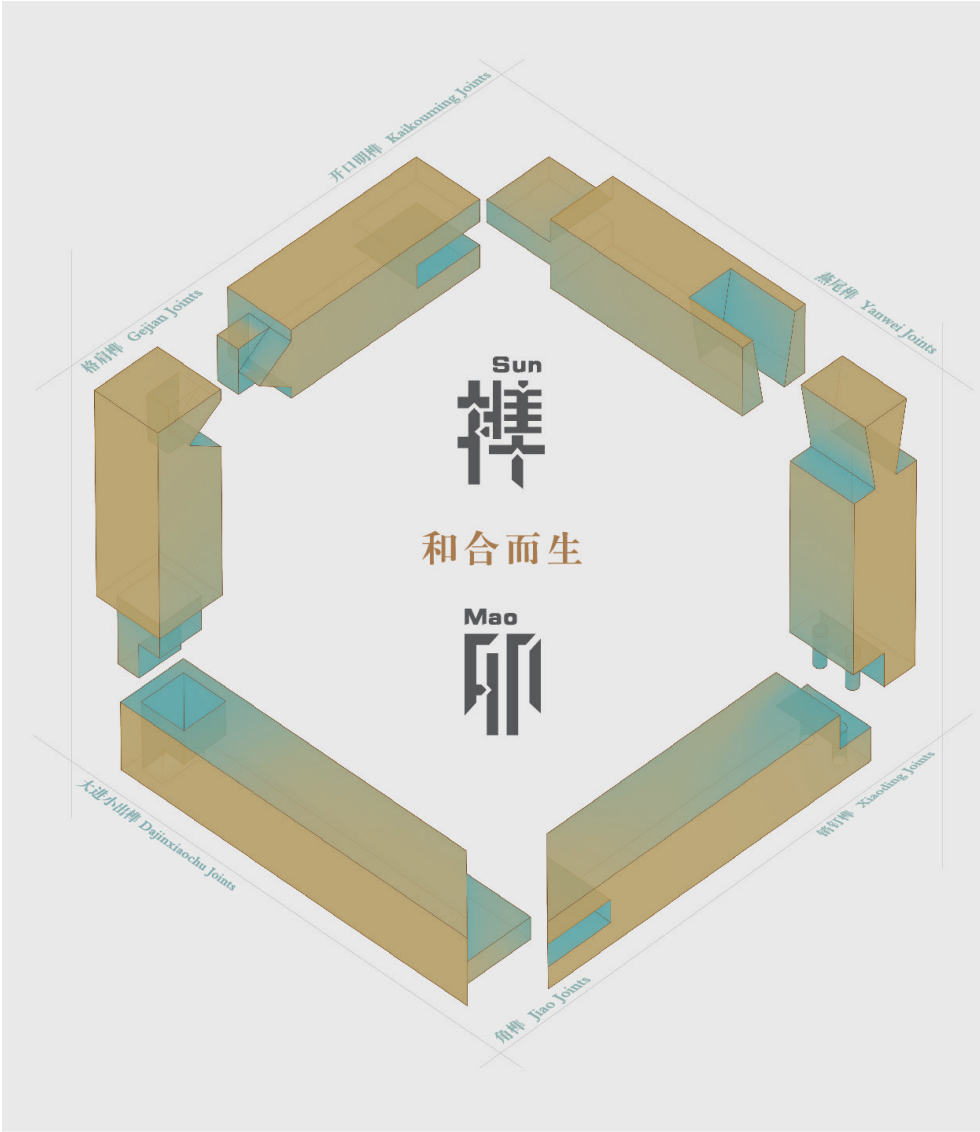

主办方：设计互联，融设计图书馆

展期：2019.8.7-11.10

园景展馆

策展人：张雷

策展团队：黄鑫晨、熊纪平、帅群芳

“融•榫卯 和合而生”基于中国传统手工艺，将东方文化精髓与国际领先的创新设计结合，展览作品涉及建筑、家具、首饰、灯具、装置等多个领域，试图从不同层面探讨“榫卯”这一传统手工艺融入当代设计的可能性，探索“传统的未来”这一设计语言。

展览由榫卯出发，探讨物与物、物与人、人与人之间的关系，由此衍生为展览的三个版块。“榫”与特定的“卯”结合——所谓“和合”，之后生成新的物件，产生强有力的支撑力、连接力、生命力。展览主题“和合而生”即由此而来。

主动挖掘新兴的设计实践、支持设计人才和拓展设计研究的边界，一直都是设计互联的使命之一。这次设计互联主办展览“融•榫卯 和合而生”，不仅呈现了对于传统文化、传统工艺的现代传承方式，而且为观众展示了创新型设计实践“融设计材料图书馆”——一个由青年设计师和青年研究员架构起来的公益组织。

融设计图书馆自2009年起，从竹开始连续五年渐次研究了丝、土、铜、纸五种传统手工材料。这次呈现的是他们新的五年计划，从榫卯出发探讨五种中国人对待自然材料的传统方法。我们如何回应传统，一直都是当代设计不可回避的问题。融设计图书馆展示了一种对于传统的传承与创新的思考，它并不是修旧如旧，也不是完全的摒弃过去，而是用现代人的目光、理性的解构方法论和富有感情的设计创作，活化传统材料、工艺和文化。

设计互联希望与融设计图书馆一起，通过对榫卯的解构，推动中国传统手工艺的再生和中国当代设计的发展。

Rong • SunMao is the sixth year of Rong Design Exhibition. Rong in Chinese means “melting”. By deconstructing the traditional crafts Rong designers turn them into contemporary design.

2012 – 2017, focusing on one traditional Chinese crafts material each year, Rong Design Exhibition invites designers from different areas to do the contemporary design. 1st year – bamboo, 2nd year – silk, 3rd year – mud, 4th year – copper, 5th year – paper. The sixth year, SunMao-Chinese Joints.

SunMao - Chinese Joints is a traditional Chinese way for connecting woods. This technique can be applied to big structures, like buildings and bridges, but also to small object like furniture and window. Ancient Chinese craftsmen used advanced wood joints to complete the three-dimensional structure.

Nowadays the hardwood materials gradually faded. Based on the concept of deconstruction, Rong Design Exhibition sincerely invites you to discuss in which direction will SunMao-based design go.

One of Design Society's missions is to explore new design practices, supporting talented designers and expanding the boundaries of design. The Rong Design Exhibition • SunMao presents not only how contemporary design inherits traditional culture and craft, but also introduces an innovative design project Rong Design Library, a nonprofit organization that operated and supported by young designers

and researchers.

Since 2009, Rong Design Library has spent five years to study five kinds of traditional handicraft materials including bamboo, silk, mud, copper, and paper. This time, they will bring in a new 5 years plan, beginning from the study of SunMao (wood tenons and joints), to study and explore in total five conventional Chinese methods of treating the natural materials. How we respond to the tradition has always been an unavoidable question in contemporary design. Rong Design Library presents an approach to inherit and to innovate tradition. They treat tradition neither as restoration of the past, nor as denial of the history. Instead, they deconstruct and analysis tradition and traditional craft from a modern perspective and create poetic works with traditional materials, crafts and cultural references.

By exploring and deconstructing the SunMao craft, Design Society and Rong Design Library hope to drive the revival of traditional Chinese crafts and the development of contemporary Chinese design.

设计互联作为综合创新设计聚合平台，致力于为公众呈现丰富多样的文化活动与不同凡响的文化体验。建筑设计价值与潜力，是设计互联自创立以来，始终关注的重要议题。我们的开馆展之一“筑·梦”集中展示了海上世界文化艺术中心的建筑师、普利兹克建筑奖得主横文彦过去五十年的建筑设计理念与重点项目；我们与2017年深港城市建筑双城双年展合作，将世界“移动建筑”大师尤纳·弗莱德曼的“街道美术馆”带到文化艺术中心美丽的屋顶花园，邀请本地学生参与共同搭建；在文化艺术中心与女娲滨海公园相接的绿地上，德国斯图加特大学的阿希姆·门格斯与扬·尼普尔思教授用机械臂织造的“研究亭”是我们公共艺术项目中的亮点，广受公众的喜爱。

设计互联自2016年起与社会创新团队众建筑建立联系，这家成立于2010年的建筑事务所以城市、建筑、产品等多学科交叉的创新方式实现社会影响力。他们是亚洲首家获得B Corp认证的建筑设计

机构。本次展览通过30件作品，集中呈现了众建筑十年来的设计实践，让观众得以体验试错、催化、捣鼓和参与四种创新的工作方法，并邀请专业的儿童教育平台“童筑文化”合作策划“玩学工作站”工作坊，使用众建筑研发的空间学习工具“玩学架”，与孩子们一起设计玩空间。

通过众建筑与“社会设计·玩着学”，设计互联邀请公众了解、参与到另一种建筑实践，拓展建筑设计边界，并与我们共同探讨建筑、生活空间与城市设计等话题。

众建筑被国际知名设计杂志Domus评为“2019世界最佳建筑事务所”之一，并入选国际创新商业杂志FastCompany的“2018世界十大创新建筑公司”榜单，其作品曾在威尼斯建筑双年展、鹿特丹国际建筑双年展与哈佛大学设计学院。

As an innovative cultural platform, Design Society offers unique and diverse cultural experience to the public, and looks at the values and potentials of architectural design. One of our inaugural exhibitions, Nurturing Dreams, featured the fifty-years of architectural practice of Fumihiko Maki. Through the collaboration with Shenzhen Urbanism Architecture Bi-City Biennale, Design Society invited Yona Friedman to develop a new Street Museum in our roof garden. And still on the front lawn ICD/ITKE Research Pavilion co-produced by Achim Menges and Jan Knippers, stands among our public art works as one of the favorites for the public.

Design Society paid close attention to People's Architecture Office (PAO) from Beijing since 2016. The firm is a multi-disciplinary studio focused on social impact through design, particularly in the areas of housing, urban regeneration, and education. PAO is the first architecture firm certified as a so called “B-Corporation” in Asia and serves as a model social enterprise. Their exhibition *Social Design: Learning at Play*, not only shows key projects from PAO's practice but also includes interactive models

that allow visitors to experience the methodology hands on. Additionally, Learning at Play Workshop will be hosted in collaboration with More than Architect utilising PAO's brand new 'Plugin Learning Loft', a prototype for early childhood education. The workshops allow participants an even more direct experience of play in design.

With PAO's *Social Design: Learning at Play*, Design Society seeks to share the fun of social design with the public, showcases an alternative architectural practice and invites you to participate. Through the expansion of the realm of architectural design, we can explore the topics of architecture, living space and urban planning together.

Domus named PAO as one of the world's best architecture firms of 2019 and FastCompany listed PAO as one of the world's ten most innovative architecture companies in 2018. The studio's award-winning works have been exhibited at the Venice Architecture Biennale and Harvard Graduate School of Design.

设计的价值：活的传统@2019苏州国际设计周  
Values of Design: Living Tradition in 2019 Suzhou Design Week

苏州是联合国教科文组织授予的“手工艺与民间艺术之都”。姑苏区，是全国首个也是唯一一个国家历史文化名城保护区，拥有各类非物质文化遗产代表性项目106项、各级非遗传承人49人。如何活化这些珍贵的文化遗产，将历史文化优势变成面向未来的产业优势，不仅是关系到城区发展的文化议题，也是重要的社会经济议题。设计互联作为中国首个专注设计的大型文化机构，此次应姑苏区政府邀请，在古城苏州策划并展出《设计的价值——活的传统》展览，以工艺复兴、方法与技艺、迭代与创新、理想社会四个主题，讨论设计行业如何为传承与活化传统手工艺带来新思路、新价值。

此次展览将呈现来自中国北京、上海、深圳、苏州、杭州、景德镇、香港与台湾，以及美国、荷兰与德国的18位（组）国内外设计师的29件创新实验性的作品与项目，门类涉及建筑、家具、家饰、服饰、灯具等多个领域。参展设计师们以不同的视角和实践方式，综合运用竹、木、纸、苎绸、苧麻、陶瓷及多种新型材料，将榫卯、纸伞、吊染、夏布、编织、制陶等传统工艺，与数字设计、算法设计、3D打印等当代技术相结合。

展览设计运用工业化纸质材料来构造不同展区之间的隔断，借用中国传统屏风的意境，使观展过程充满探索的趣味性。《设计的价值——活的传统》将是2019年苏州国际设计周的必打卡点。

设计互联自2014年创立于深圳，强调以设计驱动

社会发展，长期关注并支持创新设计实践，传播设计理念，推动设计与城市、产业的结合，使设计在更广泛的社会领域发挥积极的作用。设计互联自2017年开始对设计与工艺的研究展览计划。工艺在苏州，既是古戏台上的刺绣罗缎、园林中的长物雅趣，又是长久以来持续革新，带动技术新应用和促进当地贸易发展的重要动力。设计互联很高兴能够结合苏州城市文化和产业环境，展示国际前沿的设计实践，希望观众从展览中获得新的乐趣和理解。

设计的价值：活的传统，2019苏州国际设计周  
Values of Design: Living Tradition in 2019 Suzhou Design Week

As a Creative City of Crafts and Folk Arts named by the UNESCO, Suzhou is known for its traditional handicrafts involving paintings and calligraphic art. Building on these traditions, Suzhou is focusing on fostering creativity and promoting the integration of its renowned history and culture together with tourism, innovative businesses, technology, fashion and other creative domains. An innovative metropolis and an important business center, Suzhou is striving to build itself into a hub of international talents, industries and information.

Design Society is invited by the Gusu People's Government to present Values of Design: Living Tradition, an exhibition about the reawakening of crafts in contemporary design and society, which present 18 exhibitors and 29 works in four themes of Craft Revival, Craft Methodologies, Craft Innovation, Crafting a Better World.

The exhibition evaluates how creative practices are reinvigorating crafts from within, using this medium as an interface to engage with larger themes in contemporary society. It explores how designers create new lifestyles with crafts. In this context, we ask how designers are relating to the past through traditional crafts, how they are engaging with materials, how crafts are being innovated or are a channel for new innovation, and how crafts represent a new idealism and responsibility. Each section shows how designers are thinking through crafts, showing a new spirit or attitude towards detail, time, culture, skill, value and connection, taking the audience to look back on traditions,

deconstruction techniques, exploration and innovation, and imagine a future world benefiting from the potential of craft.

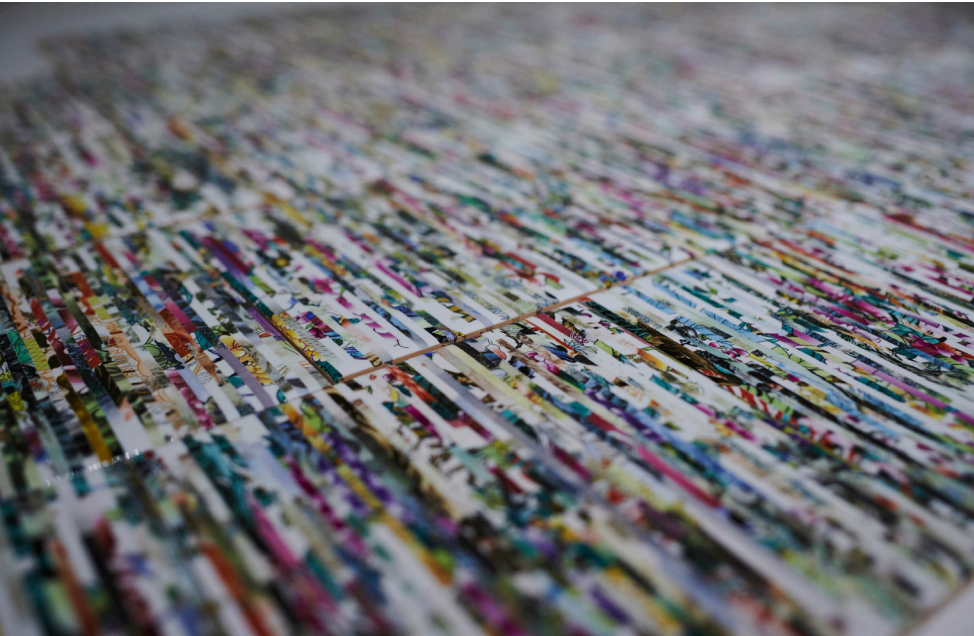

Design Society believes design as a catalytic social force, endeavours to support innovative design practice, promote design thinking, merges design with industrial and urban development, and makes design a more influential role in a wider social sphere. Design Society started its research on design and crafts in 2017. Crafts in Suzhou is not only an important heritage, but a key driving force for the development of new technology and local trading. Design Society is delighted to present pioneering design projects worldwide in context of Suzhou's urban cultural and industrial environment, and to bring new pleasure and understanding to the public.

2019 Go! Community Festival:

Stories of 4 Communities,100 Residents and 45 Chairs

我们走入花果山、四海、桂园和海昌四个社区，和蛇口社区基金会联合发起首届社区公共座椅竞赛，进行为期一个月、以设计为主题的社区营造。近百人参与，共制作公共座椅45把，我们挑选了其中17件作品，于2019年12月21日- 22日在海上世界文化艺术中心202室展示，为获奖作品颁奖，并举行了一场亲切的茶话会。

设计互联希望以设计为纽带，使居民与居民间、居民与社区间建立起更加紧密的社会联系，以培育一个可持续的、更具社会弹性及感知力的、与设计互联的蛇口未来。本次社区节是设计互联对社区营造的初次尝试，居民带着对社区营造的好奇来，带着对社区营造的信心走。

Design Society initiated its inaugural Public Chair Campaign in association with Shekou Community Foundation. # 腾讯青年行 Tencent Youth Program

作为一个崇尚交流和协作的开创性综合文化机构，设计互联长期探索先锋性的设计教育，与学校、企业合作组织公共教育项目。我们倡导“与社会共设计”，策划人人都可参与的设计创新活动。其中，青少年是我们重点关注的群体。设计互联携手腾讯“湾区青年行”，共同拓展湾区青少年创新教育的可能性。

“湾区青年行”是腾讯联合一批湾区名企、名校和社会机构，共同发起的粤港澳大湾区青少年研学交流计划，在日常周末及寒暑假，为粤、港、澳三地的中学生提供优质的免费研学项目，预计未来三年将服务超过一万名湾区中学生。设计互联是“腾讯青年行”的核心合作伙伴，组织每月一次的文化创意活动。

2019年5月25日，设计互联与“腾讯青年行”举办了首场活动，联手打造V&A艺术之旅。由V&A高级设计策展人柯鹿鸣（Brendan Cormier）为30名学生导览《设计的价值》展，并以“如何通过展览体现设计的价值”为主题，由柯鹿鸣与设计互联副馆长赵蓉现场分享策展故事。随后，Mass-lab的设计实践课程“纸牌造桥”引导同学们利用生活中触手可及的材料，学习桥梁搭建原理，引发同学们对设计和创意的思考。同学们反馈说：“我们学会了如何将设计的思维用于日常生活！”

As an open and pioneering cultural platform, Design Society has been fostering design education through collaboration with schools and enterprises. We advocate the concept of Design with Society, and apply it to our participative learning programmes. Teenage is our key target group. Design Society collaborates with “Tencent Youth Go” to jointly explore the possibilities of creative education.

“Tencent Youth Go” is an exchange programme initiated by Tencent together with a group of established enterprises, universities and social institutions in the Greater Bay Area, providing events tailored for middle school students from Guangdong province, Hong Kong and Macao, to explore distinctive learning experience. “Tencent Youth Go” aims to serve more than 10,000 students within the upcoming three years. As the core partner of “Tencent Youth Go”, Design Society organizes monthly creative educational events.

The first event was hosted on 25 May 2019. Brendan Cormier, senior curator of Victoria and Albert Museum, gave a guide tour for Values of Design exhibition to 30 students. Together with Zhao Rong, deputy director of Design Society, Cormier chaired a sharing session following the tour, encouraged the students to think about “how to represent values of design through the exhibition”. Afterwards, Bridge with Cards, a design workshop organized by Mass-lab introduced principles of bridge construction to the students, and invited the students to use daily materials to create architectural structures. “We’ve learnt how to apply design thinking to our daily lives!” Excitedly commented the students.

## 少年创客时装秀 MakeFashion EDU

设计互联携手创客教育平台 MakeFashion EDU，以教育为使命开展系列公益活动，旨在为青少年打造一个表达、分享设计理念的平台，并由此凝聚本地社群。高科技设计师、工程师、创客和孩子们汇聚到一起，从方案到制作，完成灵感来源、设计理念、设计草图、技术清单，共同创造美观、实用又极富创意的科技时装。2018年首届少年创客时装秀吸引了10所学校、教育与创客机构参与，现场展示了由7至17岁的青少年设计师组成的20个团队设计的科技时装。2019年的第二届活动展示了更具创意的22组作品，展示了孩子们对环保、和平、科技、个人价值等不同议题的思考，让观众在欣赏的同时，与学生设计师同思考、共行动。

通过联结时尚与创客科技，设计互联以少年创客时装秀作为创新教育实践，不断探索更多设计教育的可能性。

Cooperated with MakeFashion EDU, Design Society has carried out a series of public welfare activities with the mission of education, aiming to create a platform for young people to express and share their design ideas, and thereby to unite local communities. High-tech designers, engineers, creators and children came together to complete the source of inspiration, design concepts, design sketches, and technical checklists from proposal to production, and jointly created beautiful, practical, and extraordinary creative fashion. The first Youth MakeFashion Show in 2018 attracted ten schools, education and creator institutions to participate, displaying the technical fashion designed by 20 teams composed of 7 to 17-year-old young designers. The second event in 2019 exhibited 22 more creative works, indicating the children's thinking on different topics such as environmental protection, peace, technology, and personal value. Therefore, audiences can think and act together with student designers while appreciating the art works.

By connecting fashion and creators' technology, Design Society takes the Youth MakeFashion Show as an innovative educational practice, and constantly explores more possibilities for design education.

## 夜宿艺术馆 Night at Museum

“夜宿艺术馆”系列活动于2019年暑假期间，以设计互联展出的《百年国漫大展》为载体，展开一连串的艺术教育活动。参与者来到夜幕中的海边艺术馆，在夏日的夜晚感受艺术的氛围，在艺术家的带领下了解中国漫画的故事、榫卯的艺术或设计的价值。自己动手描绘星空或刻制橡皮章完成可爱的小豆本，或聆听漫画中记载的古老传说故事，伴着艺术入眠。第二天早起，在清晨的海边，感受一场瑜伽的唤醒，或一场戏剧的活力。“夜宿”活动在展览期间共开展6场，共100多名观众参与，体验别开生面的展厅夜猫子生活。

During the summer vacation of 2019, the series of “Sleep with Art” launched a string of art education activities based on the “Y-Comic-X?” exhibited by Design Society. Participants came to the seaside art gallery and experienced the atmosphere of art on summer nights. Under the guidance of artists, they also learned about the story of Chinese comic, the art of “Sun Mao”, or the values of design. Besides, they painted a starry night or craved a rubber stamp to create the cute little bean book by themselves, or listened to the ancient legends recorded in the comics and fell asleep with art. Got up early in the next morning, and felt the awakening of a yoga or the vitality of a drama by the seaside. “Sleep with Art” was held for six times during the exhibition, with a total of more that 100 audiences participated and experienced the unique nightlife in the exhibition hall.

Design Society has two main galleries for large-scale temporary exhibitions: the V&A Gallery and the Main Gallery. The ground floor also features the Park View Gallery with large windows to the park outside. All gallery spaces have been designed and fitted to the highest quality to accommodate many different exhibition possibilities. A minimal number of columns allows for maximum use of the exhibition space and free exhibition planning.

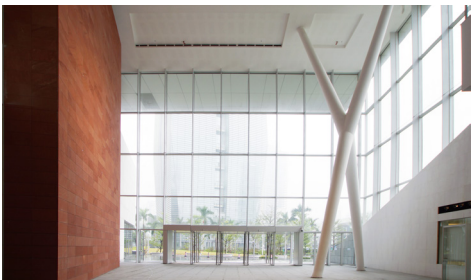

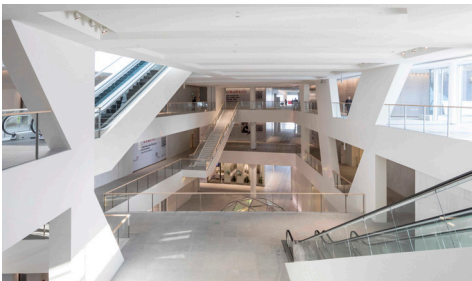

### 境山剧场

#### Mountain View Theater

可容纳328人的境山剧场可谓整座建筑的点睛之笔。剧场三楼门厅可一览南山美景，四楼门厅与屋顶花园相连。剧场可用于举办讲座和演出。

A 328-seat auditorium marks the crown of the Culture Plaza. With views overlooking Nanshan mountain, a third-floor foyer opening up into a terrace, and a fourth-floor foyer overlooking the roof garden, the theatre will be a place to host lectures and performances.

### 广场

# 首届设计互联 公共艺术季

## Inaugural Design Society Public Art Season

海上世界文化艺术中心于2018年12月1日迎来一周年庆典。作为一周年纪念的特别活动，设计互联在海上世界文化艺术中心推出首届公共艺术季。安东尼·格姆雷、刘建华、LAAB、众建筑、范承宗、Stickylines、来自德国斯图加特大学计算设计学院的阿希姆·门格斯和扬·尼佩斯等海内外著名艺术家、设计师和机构的七件大型公共艺术作品，分布在建筑内外，致力于为公众构建一个不断生长的艺术场域。

由设计互联运营的海上世界文化艺术中心是世界著名建筑师槇文彦在中国的首件作品，占地2.6万余平方米，建筑的主体空间分别面向山、海、城市三重视野。建筑总面积超过三分之一都是公共空间，全年无休，面向所有人开放。充裕的公共空间，迂回曲折地遍布全馆，人们能在其中遇见一些奇趣的角落。有些空间给人们偶遇的机会，而另一些，例如三楼的庭院，则营造了静默的氛围。从空间设计和利用的角度而言，设计互联的建筑可称为‘浓缩了的社会空间’（Social Condenser），一座迷你城市。

设计互联是一家公共机构，公共艺术是其项目规划的重要部分。公共艺术是使存在于公共空

间的艺术能够在当时当下与公众发生联结的一种思想方式，是体现公共空间民主、开放、交流、共享的一种精神和态度。设计互联将公共艺术作为其空间的语言，积极引导观众走入艺术的世界。首届设计互联公共艺术季经挖掘与筛选，以创造性的介入，提升观众的参与感与愉悦感。这也是设计互联的旨归所在：搭建一座连通人与城市的桥梁，让代表创意、创造、创新及社会力量的作品与观众相连接，激发出设计驱动社会的巨大潜力。

公共艺术季也为设计互联吸引了更广泛的众。通过公共艺术季，作品走出展厅，走向户外，将展览引领到更广泛、更易接触的公共空间中。同时，此次展览也是设计师以作品回应海上世界文化艺术中心建筑空间本身的一种方式。这些作品不仅让建筑物焕发生机活力，也呈现出海上世界文化艺术中心在深圳这座设计之都因独特的地理位置而蕴含的无限可能——依山傍海，地处大湾区的核心位置，这里已然成为了海内外和本地创作者们施展才华的平台。

The Sea World Culture and Arts Center (SWCAC) celebrated its one-year anniversary on 1 December, 2018. As a special event for the anniversary, Design Society launched its inaugural Public Art Season at SWCAC. Seven large public artworks by famous artists, designers and institutions at home and abroad, including Anthony Gormley, Liu Jianhua, LAAB, People's Architecture Office (PAO), Cheng Tsung Feng, Stickylines, Achim Menges from School of Computing and Design at University of Stuttgart, Jan Knippers from Institute of Building Structures and Structural Design University of Stuttgart, are distributed inside and outside the building, committed to building a growing art field for the public.

Design Society is a public institution, and public art is an important part of its programming. Public art is a way of thinking that enables art to exist in public space and be connected with the public. It embodies a spirit and attitude that reflects the democracy, openness, communication and sharing of public space. Design Society uses public art as its spatial language, and actively guides viewers into the world of art. The inaugural Design Society Public Art Season provides ultimate creativity connections, promoting the audience's interaction and enjoyment. This is also the purpose of Design Society: building a bridge between people and cities, connecting works that represent the innovative and social power of design to the audience, inspiring the great potential of design-driven society.

SWCAC is operated and programmed by Design Society, and is the first building in China by the world-famous architect Fumihiko Maki. It covers an area of 26,000 sqm, and offers views of the surrounding mountains, sea and city. More than one-third of the total building area is public space and is open to the public throughout the year. The ample public space is complex and winding and is all over the building, allowing people to encounter some interesting corners. Some of these spaces give people the chance to meet; others, such as the courtyard on the third floor, create a quiet atmosphere. From the perspective of space design and utilization, the Design Society building can be called a “Social Condenser”, or a mini city.

Public art is also a way to expand Design Society's exhibition program to a wider audience, site-specific works can be experienced outside of the exhibition halls, expanding to publicly accessible spaces. It is also a way for designers to respond to the architectural space of SWCAC with their works, animating the building and creating exciting, site specific interventions for audiences. It represents the possibilities of Design Society as a design capital. Due to its unique geographical location – between the city, mountain and bay-front, it is located at the heart of the Greater Bay Area, and has become a platform for domestic and international talents.

### 刘建华

#### 《聚核》(2012–2018)

**Liu Jianhua: A Unified Core (2012-2018)**

《聚核》是中国著名当代艺术家刘建华受设计互联支持全新创作的作品，首展于设计互联“造物新世代”新工艺百物展，旨在探讨人的内心精神指向。在一方透明的空间中，由素白瓷烧制而成的叶片凌空飘逸，似聚而松，却无法与外界融合，也无法呼吸。好像自由的空间在此迅速凝固，透露着人心恒常的困感和迷茫。

刘建华，1962年生于中国江西吉安市，现生活和工作在中国上海。他以综合材料为主要媒介进行创作，是中国著名的雕塑和装置艺术家。刘建华参加了2017年第57届威尼斯双年展主题展“艺术万岁”等重要展览，作品被纽约现代美术馆和伦敦泰特现代美术馆等重要美术馆收藏。

A Unified Core is one of the most recent works by established Chinese contemporary artist Liu Jianhua. The production of the work was supported by Design Society and presented during the exhibition Craft: The Reset.

It demonstrates the inner orientation of people. White, leaf-shaped porcelain pieces gather and disperse, composed in a transparent container where they float without breath, separated from the outside world. The free space instantaneously freezes, leaving people with perplexity and confusion.

Liu Jianhua is one of the best-known sculpture and installation artists in China, often working with mixed media. He has participated in major exhibitions, including the 57th Venice Biennale Arte “VIVA ARTE VIVA” in 2017. His works have been collected by institutions all across the globe including The Museum of Modern Art, New York and Tate Modern, London.

### LAAB

#### 《漫花丛》（2014/2015）

**地点：滨海外广场**

**LAAB: Kaleidome (2014/2015)**  
**Location: Coastal square, L1**

设计互联主展馆开幕展“数字之维”参展作品《漫花丛》是由242个辐射切割单元组成的镜面不锈钢结构所组成的半球体装置。每个形态不一的结构均由计算机生成，能与其他单元无缝镶嵌，构成一个完整的形状。这种利用计算机生成不规则形态的设计手法称为“参数化设计”，多用于建筑领域。

LAAB是香港建筑设计公司，致力于跨领域设计实践。曾获日本优良设计奖及汇丰银行青年商业大奖。

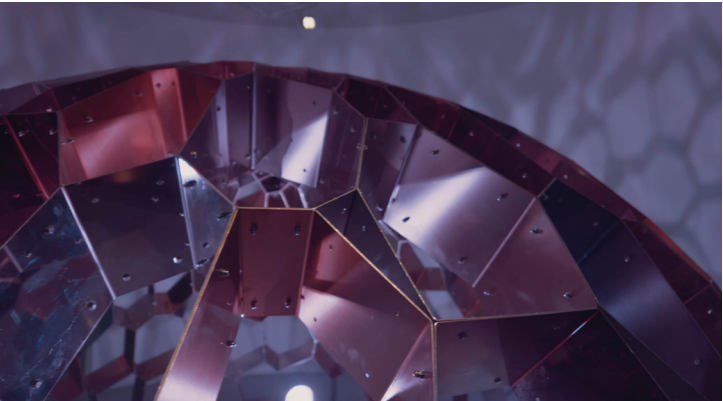

As an innovative cultural platform, Design Society offers unique and diverse cultural experience to the public, and looks at the values and potentials of architectural design. One of our inaugural exhibitions, Nurturing Dreams, featured the fifty-years of architectural practice of Fumihiko Maki. Through the collaboration with Shenzhen Urbanism Architecture Bi-City Biennale, Design Society invited Yona Friedman to develop a new Street Museum in our roof garden. And still on the front lawn ICD/ITKE Research Pavilion co-produced by Achim Menges and Jan Knippers, stands among our public art works as one of the favorites for the public.

众建筑《社交厂》（2018）  
地点：滨海瞭望台

People’s Architecture Office  
(PAO): Social Network Factory  
(2018)

众建筑团队 PAO team

应设计互联邀请，国际知名建筑设计公司“众建筑”创作了这组大型户外交互装置，名为“社交厂”。

“社交厂”由一系列内置于三角空间钢架中的扭转钢管构成，其充满未来感的形式鼓励公众的探索使用，它能被攀爬，被依靠，被滑行，还能收集倾听周围的声音，更能通过内置的潜望镜观察海边城市的环境。

“社交厂”旨在促进人们对新兴城市区域的归属感，增进社区联结。众建筑运用这样的可使用型设计方案，强调社区与社会互动，实际展示城市愿景，以此鼓励公众参与，共同将公共空间转化成社区空间。

众建筑擅长创新、跨界和富有挑战性的设计，并因此屡获殊荣。众建筑团队常驻北京，成员包括建筑师、工程师、产品设计师和规划师。他们以“设计为大众”为原则，致力于发挥设计的社会影响力。

Social Network Factory is an outdoor installation where visitors and community can playfully interact with each other. The installation encourages direct physical engagement: visitors can climb through it, rest on it, slide down it, augment sounds through it, and look through its periscopes to see the city and environment beyond.

This structure, created especially for Design Society, investigates how a newly developed urban setting can foster a sense of belonging and social connection.

People's Architecture Office (PAO) is a young, award winning architecture practice based in Beijing. With the belief that design is for the masses the studio focuses on social impact through innovative design.

设计互联主展馆开幕展“数字之维”参展作品《ICD/ITKE研究亭》是一件模块化的建筑结构，设计师运用计算机技术将自然原理融入到建筑中，其灵感来自甲虫外壳。它使用了最少且最简单的模块单元，达到极大自由度的几何形态。

这件作品的主要创作者阿希姆·门格斯教授是德国斯图加特大学计算设计学院创始人，他的跨学科研究项目曾在英国国立维多利亚与艾伯特博物馆（V&A）和德国维特拉博物馆展出。

This modular Pavilion was inspired by the formation of a beetle shell, which reduces form to a minimum while maintaining geometric freedom. It was shown as part of the inaugural exhibition Minding the Digital in Design Society's Main Gallery. The form was made possible through robotic fabrication. The pavilion is the practical outcome of nature-inspired principles integrated into the design process by applying computational technology.

Achim Menges is the founding director of the Institute for Computational Design at Stuttgart University. His interdisciplinary research projects have been exhibited internationally at venues such as the Victoria and Albert Museum and Vitra Museum.

安东尼.格姆雷

《Another Time XVII》  
(2014)

三楼金字塔广场内侧

Location: Inside to the Pyramid Plaza, L3

英国知名艺术家安东尼·格姆雷(1950-)的人体雕塑举世闻名，他通过创作思考人类存在的意义，探讨人体和自然空间之间亲密而复杂的关系。他通过着重考量观者的视角，来讨论“地平线”这一概念。在开阔的空间中观察着地平线的瞬间，人体仿佛与外在空间形成了一个整体，展现出人类存在对于自我以及自然的意义。

安东尼·格姆雷爵士（OBE）是英国著名雕塑家，他的代表作有：“北方天使”、“另一个地方”、“地平线”等。自2007年起，他的作品开始出现在世界各地，包括伦敦、纽约及香港等地，并赢得了极高的国际声誉。

The relationship between the human body and the environment is intimate and complicated. The bronze-casted figure embodies the artist's reflection on human's existence. He brings the perspective of viewers into consideration to discuss the concept "Horizon." Observing the environment in a vast space, one may find his or her body and the outer space merge into one, showing how human's existence matters to nature and ourselves.

设计互联邀请台湾知名设计师范承宗创作了这件场地特定的新作品，它也是设计互联主展馆第二档展览“造物新世代”的参展作品。这个大鱼筌体现了传统渔具的智慧。范承宗向台湾邵族长老学习制作鱼筌，由此了解到制作材质、猎物种类和环境决定了鱼筌的形状和大小尺寸。他收集部落保留下来的鱼筌，探索它们背后的故事。

在当代社会，传统工艺和智慧能扮演怎样的角色呢？在这件作品中，观众变成了“猎物”，而海上世界文化艺术中心这座场馆则成了他们的生存环境。

范承宗是个身体里住着老灵魂的年轻创作者，他着迷于挖掘隐藏在传统器物中、以时间凝结而成的智慧。他着重于研究竹器物，为了保护这些器物的无形价值，他从传统中找到灵感，然后设计新的物件形式。在这个过程中，他以过去的智慧和文化遗产为基础，探索传统工艺在当代的定位，从传统中学创造。

This large sized fish trap is a new commission by Design Society. It embodies the craft wisdom of traditional fishing tools. Feng learned the making technique from an elder of the Taiwanese Thao Tribe. He researched and collected fishing traps from various tribes, exploring the reasoning behind different models. The type of material, prey and environment determine the traps' varying shapes and sizes.

The designer used this traditional wisdom to determine a new shape, to catch the visitors of Sea World Culture and Art Center.

Cheng Tsung Feng is a young Taiwanese designer with an old soul. He is fascinated by old crafts and traditional objects, especially bamboo items. He explores these as conveyers of past wisdom and preserves their values by designing new work from their tradition.

“彻夜难”是一个关于光污染的纸质装置。设计团队受到珠三角的环境数据启发，通过程序计算生成作品形状。抽象的数据能够通过数字化设计转化为具体的形态，帮助人们进一步了解城市问题，促进民众参与，创建协作型社会。

Stickyline设计团队擅长使用计算机技术设计大型纸质装置。与连卡佛、莱卡和买得起艺术节（Affordable Art Fair）有长期创意项目合作。

ON/Off is a paper installation which promotes an urban vision of a collaborative society. Its form is derived by taking abstract data from the Pearl River Delta and visualizing it in tangible shapes. This paper experiment showcases the power of digital tools to help design address urban issues and inspire collective reflection.

Stickyline is a design duo known for creating large scale paper installations through 3D modelling and generative design. They have been collaborating in creative projects with Lane Crawford, Leica and Affordable Art Fair.

我希望通过这首曲子讲述深圳从改革开放到‘中国硅谷’这段快速发展的历史。这首曲子里可以听到街道上人声鼎沸，还有建筑师槲文彦的声音。他称这个空间为‘People’s Hill’。在这里，你能找到这个城市很多创意的灵感和作品。我在电子市场看到了很多机器人，把它们的声音也收录了进来。我希望创作出类似80年代电视上的纪实类节目的曲风，但听起来却又有种未来感。

In partnership with: NABA (Nuova Accademia di Belle Arti), Domus Academy Milan  
Special thanks to: Design Society

Design Society was proud to accommodate the Italian Pavilion of Shenzhen Design Week. It was hosted in Shenzhen UCCN (UNESCO Creative Cities Network) Gallery. The exhibition showcased the work of young Italian professionals based in the Pearl River Delta. The focus will be on the projects of the members of Italian Designers Association (IDA) and the 'South China- Turin Collaboration Lab', born from the cooperation of Turin Polytechnic with the prestigious South China University of Technology (SCUT). The "Italian Day" on 22 April was one of the most important moments of the Shenzhen Design Week. The Italian Day was an opportunity for a discussion on the themes of design and sustainable development between Italian and Chinese professionals, through meetings and seminars that will then animate the Pavilion throughout the week. The Italian Day introduced to the Chinese public the themes of the multidisciplinary of Italian design skills that, in the Pearl River Delta, translate into the ability to firstly manage the entire project cycle, and not just the product, then in the "sustainability" as a minimum common denominator of every initiative, and finally in a constant reference to the tradition of trade between the Mediterranean and the Far East along the Silk Road. The ideal closing of the Week was contributed by a Day organized by NABA - New Academy of Fine Arts in Milan, focused on an interactive presentation called "Design in the Air", and on "Searching for Chinese Design Root" – a themed talk given by Zhang Lei, the co-founder of Pinwu and alumni of Domus Academy Milan.

本届深圳设计周首次引入主宾国概念，以“以小见大：意大利设计师在南中国”为主题的意大利馆，首先突出表现了意大利从业者们在南中国的强大存在，他们活跃在不同的设计领域。最重要的是，它展现了单个设计师以灵活和连贯的方式管理设计活动的的能力，其方法可以适用于不同规模的项目。围绕“意外,响应,留心,交互”四个主题，呈现在珠三角的意大利年轻一代设计师创意与功能并重的设计作品。设计周将4月22日作为“意大利日”，开展了工作坊、圆桌讨论等精彩活动，对意大利馆的先锋设计作品进行深度解读，立足深圳，拥抱全球设计先锋力量。4月28日的NABA日以“空中的设计”风筝工作坊，及品物流形创始人、米兰多莫斯设计学院校友张雷的主题讲座“寻找中国设计的根”吸引了总共近500名公众参与。

create a sense of a happiness community. The exhibition incorporates the economic attributes of the event. Adding artistic atmosphere and humanistic perspective to the economic summit with the works of outstanding German and Chinese artists is a new attempt to complement art and economy. The exhibition explores the relationship between business, art and happiness. In the context of the ever-changing technology and the unclear situation, how can enterprises as economic entities become participants in the promotion of employees and social well-being? And how does art inspire individuals to think about happiness and connect individuals to form a happy community?

The participating artists include Marc Schmitz, Frederik Foert, Shi Yong, Yuan Shun and Zhang Wenxin. The works involve a large number of interactive devices, immersive multimedia images, and contemporary dance performances intertwined with light and shadow, bringing a pleasant and engaging experience to the audience.

## Our Ecology

生态伙伴

## 商业生态 Business Ecosystem

海上世界文化艺术中心现已入驻12个商业品牌，分成艺学、艺购、艺味三种业态。与传统商业差别最大之处在于，这里的每个品牌都蕴含文化和艺术元素，更加注重艺术与商业的结合；所有入驻的商户不仅是简单的租赁关系，更与文化艺术中心逐步形成独有的“文化+商业”共融生态圈。

2019年海上世界文化艺术中心再次对文化商业业态进行优化调整，对艺学、艺味业态进行品牌升级，全新引进了音乐教育、儿童桌游、分子料理等品牌元素。目前文化艺术中心的商业生态已形成聚集生活美学、艺术餐饮、美育教育、创新科技等与文化艺术紧密相关的衍生商业高地。

未来，这里的商业生态将以更具文化创新属性、更加开放共融的格局为深圳乃至粤港澳大湾区的文化发展贡献蓬勃力量。

12 brand stores have already set up in SWCAC, separated into art learning, art purchasing and art cuisine. What the venue differs most from traditional shopping mall is that every shop in it contains cultural and art elements, it also pays more attention to the combination of art and commerce. They are not just tenants, but are also collaborators for the SWCAC to build a unique integrated ecosystem of culture and commerce.

In 2019, the SWCAC optimized and adjusted its ecosystem of culture and commerce once again, upgrading the shops of arts learning and artistic flavor, introducing new brands of music education, children's board game and molecular gastronomy. Currently the SWCAC has achieved its goal for its business ecosystem derived from life aesthetics, artistic dining, aesthetic education and innovative technology which have strong links with culture and art.

In the upcoming years, the business ecosystem here will be more culturally innovative, more open-minded and more integration-oriented, contributing to the flourishing cultural development in Shenzhen and the Guangdong-Hong Kong-Macao Greater Bay Area.

## Future Plans

设计互联的未来规划，将在已有基础上延展我们的图景与雄心。

我们将继续策划极具启发意义的展览和富有创造力的活动，在我们运营的海上世界文化艺术中心为观众带来激动人心的参观体验。随着观众群体的扩增，我们的活动也越来越多元化，合作伙伴与会员的关系网亦不断拓展，让我们得以实现更多可能。

在为观众呈现多元项目之外，我们也希望与深圳创意社群及中国设计界建立更紧密的关联，从行业从业者到客户，从投资者到用户。我们积极扮演连接者的角色，促进设计创意价值链中诸多领域之间的对话，树立设计互联的界面角色，连接设计与社会、创意中国与世界。

奥雷·伯曼  
**Ole Bouman**  
**Founding Director of Design Society**

On the eve of the next decennium, the Design Society project is ready for its next phase. It will be partly a continuation of what has been built up so far, partly a widening of the scope and ambition.

We will of course continue to program inspiring exhibitions and creative events, and provide exciting visitor experiences at our main venue Sea World Culture & Arts Center in Shekou, Shenzhen. With increasing visitor numbers, a larger palette of activities across the center, and an expanding partner and members network, we are every more able to materialize the manifold potentials.

Besides the many activities and show for the general audience, we hopefully can deepen our relationship with the creative communities of Shenzhen and the Chinese design scene. Having established a mature position as visitor destination, it's now time to intensify our contacts with the professional audiences across the design discipline, from practitioners to clients, from investors to users. We are keen to develop a frequent match maker role to facilitate the dialogue between the many

aspects of the creative value chain of design, and become more strongly acknowledged for our role as interface between design and society, and creative China and the world.

We also intend to start to build Design Society's own collection, based on an agenda of relevance and topicality, positioning design at the heart of society's own development, in particular Shenzhen.

Beyond the main venue, Design Society is ready to speed up its development as a mobile creative brand, with a growing portfolio of traveling shows, conference participation, national and international publications, cultural and institutional advise, curatorial services and so on. By doing so, Design Society is prone to deliver more value to the clear shift to culture as a main driver of societal development for the years to come. Hence, we aim to leverage China Merchants strategy to culturally contribute to society by way of its portfolio across the board.

由设计互联发起并策划、与英国V&A博物馆合作出品的展览《设计的价值在中国》将于2020年1月18日登陆海上世界文化艺术中心的V&A展馆。这是中国第一个综合性梳理在地设计及其对中国现代化进程影响的展览，展示了价值观的变化如何影响着我们的设计、生产和购买行为。展览是设计互联与英国V&A博物馆长期合作的成果之一，也是2017年设计互联旗下V&A展馆首展《设计的价值》在本土化语境下的进阶重启。

设计互联与英国V&A博物馆合作，在新展《设计的价值在中国》中聚焦中国设计的发展，以探索中国不断变化的设计价值和发展格局。尽管中国有绵延数千年的传统造物工艺，但设计一词相对而言是一个新概念。中国现代设计的发展与国家现代化同步，近百年来，中国的设计师一直在快速发展和变化的环境中相互学习，并尝试不同的方法。他们致力于融合悠久的传统文化与创新的当代实践，在应对人口、发展、经济与文化全球化等问题上，不断寻找独特的解决方案。如今，这些来自中国的设计，正在推动全球有关创新、可持续发展、社会平等的对话，提出更灵活、富有批判性与责任感的视角，深入审视我们的世界。

此次展出的138件展品，通过“设计风格”“应问题”“材料成型”“身份与消费”“传情达意”“讨价还价”六大版块，覆盖工艺美术、轻工业与日用品、设计脱贫、生态保护、乡村建设、城市规划、交通、可持续发展、建筑、航空航天、女性、时装、数字化、字体等近30个议题，铺陈当下中国设计不同切面背后的文化思考。

Values of Design: China in the Making will be unveiled on 18 January 2020 in the V&A Gallery at the Sea World Culture and Arts Center. It will be the first exhibition in China to explore the growing field of Chinese design and the first to attempt to understand how changing and evolving values are helping to shape what we design, produce and consume. Initiated and curated by Design Society, in collaboration with the V&A, the exhibition continues the success of the institutions' long-term partnership, and is a follow-up to Values of Design, the inaugural V&A Gallery exhibition produced by the V&A in collaboration with Design Society in 2017.

For Values of Design: China in the Making, Design Society in collaboration with the V&A have shifted the lens to focus on design developments in China to explore the changing design landscape in the country. China boasts a tradition of craft and artistry that stretches back thousands of years, yet the term 'design' is relatively novel, with varied definitions and interpretations. It emerged during a process of state modernization, and over the years designers in China have been learning from each other and testing out different approaches amidst an environment of rapid development and change. In this process, they have fused long-standing cultural practices with new innovations, finding unique solutions in response to a growing population, economic development, and the globalization of culture. The diverse expressions, experiments and strategies of design in China are contributing to the global conversation about innovation, sustainability, social equality – the values that shape our society today.

Values of Design: China in the Making showcases 138 works organized into six sections: 'Patterns of Design', 'Problem Solving', 'Shaping Materials', 'Identity and Consumption', 'Enhancing Communication' and 'Negotiating Cost'. Within these sections, the exhibition tackles diverse themes including crafts, industrial design, poverty alleviation, environmental protection, rural construction, sustainability, urban planning, transport, architecture, aerospace, fashion, feminism, brand culture, digitalization and font design, among others.

为什么是“数字之维”？设计互联的愿景是成为一个集博物馆、体验中心和专业活动场所于一体的全新综合机构，倡导以设计启发生活。如今我们的生活正以前所未有的广度呈现在数字景观中，“数字化”是与我们生活最为密切相关的话题之一。数字化转型需要我们高度关注，并充分发挥想象力。在“数字之维”展览中，观众能够审视当代设计的演变，了解当下最重要的设计手法，思考设计超越物质美学之外所扮演的角色。展览使观众进一步了解新兴材料、生产技术、人际互动和社会组织等领域，集中展示了我们如何在（已不再是）21世纪初期的时代进行互联设计。

Why 'Minding the Digital'? We thought that in Design Society's ambition to be a comprehensive institution incorporating a museum, experience center, and professional hub all in one, there was no subject more relevant than the digital landscape in which our life in unfolding in an ever-increasing degree. This digital transformation demands our fullest attention and requires our strongest imagination. 'Minding the Digital' allows the visitor to evaluate the evolution of contemporary design through this lens. It highlights some of contemporary design's most important modes of operation. It encourages visitors to consider the role of design beyond the aesthetics of an object, such as in materials, production technologies, human interactions and societal organizations. Minding the Digital aims to show how we literally design society in the (no longer) early 21st century.

伦敦英国国立维多利亚与艾伯特博物馆（V&A）与中国的关系可以追溯到该博物馆最初成立的年代。自1852年成立以来，在其成立之年所收购的第一批中国文物的基础上，V&A已建立了来自东亚地区的丰富馆藏。今天，在包罗万象的众多馆藏中，来自中国的精美物品约有16,000件，其中包括从公元前4千年的罕见考古发现到各种当代艺术与设计珍品，使本馆成为东亚地区之外拥有最全面、最重要的中国艺术品的博物馆之一。另外，幸运的是，V&A与中国的博物馆界有着由来已久的密切伙伴关系。数十年以来，双方交流知识、分享专长、互办馆展，加深了两国之间的文化了解。

The V&A's relationship with China stretches back to the Museum's formative years. From its inception in 1852, it has built collections from East Asia, acquiring its first Chinese artefacts in that inaugural year. Today some 16,000 Chinese items grace the V&A's eclectic holdings, with archaeological material from the 4th millennium BC through to examples of contemporary art and design, making ours one of the most comprehensive and important collections of Chinese art outside East Asia. The V&A is also fortunate to have strong and long-established partnerships with the museums community in China, sharing knowledge, expertise and exhibitions over many decades, deepening the cultural understanding between our nations.

This book and its associated exhibition in the V&A Gallery at Design Society constitute just one element of a unique and ambitious collaboration with our partners at China Merchants Group, which will establish a new
